\*As reported to the California Energy Commission's Power Source Disclosure Program. WestLight Energy and PG&E data is subject to an independent audit and verification that will not be completed later in 2026. The figures above may not sum to 100 percent due to rounding.

\*\*Unspecified sources of power refers to electricity that is not traceable to a specific generating facility, such as electricity traded through open market transactions. Unspecified sources of power are typically a mix of all resource types and may include renewables.
