### Your Account Summary

The account summary provides an overview of charges incurred, payments received, and your total amount due. It's important to note that at the annual anniversary of the start of participation in the NEM program (annual True-Up), customers are responsible for any reconciled NEM charges due.

### Your Net Energy Metering (NEM) Account Summary: True-Up

This section provides notification that this is the annual True-Up statement in which all energy charges, credits and previously billed monthly electric minimum charges are reconciled. If you generated more energy than you used over the True-Up period, this section would also include your Net Surplus Compensation.

### Summary of NEM Charges

Bill Period End Date	Net Peak Usage (kWh)	Net Part Peak Usage (kWh)	Net Off Peak Usage (kWh)	Net Usage (kWh)	Estimated NEM Charges Before Taxes	Estimated Total NEM Charges
02/15/2026	-1	-1	-4	-6	-\$2.42	-\$2.55
03/15/2026	-1	-1	-4	-6	-2.42	-2.55
04/15/2026	-1	-1	-4	-6	-2.12	-2.24
TOTAL	-3	-3	-12	-18	-\$6.96	-\$7.34

Differences may occur due to rounding. Estimated tax amount, if applicable, is displayed in the box below.

### Electric Charges

Bill Period End Date	Minimum Delivery Charges **	Energy Charges *
02/15/2026	\$12.53	-\$0.89
03/15/2026	5.09	-0.89
TOTAL	\$17.62	-\$1.78

\* Please go to [pge.com/electricrates](http://pge.com/electricrates) to find the generation component of your Energy Charges.

\*\* Minimum Delivery Charges are eliminated effective 03/01/2026.

### How Your True-Up is Calculated

**This is your True-Up statement.** Since the total electric Minimum Delivery Charges are greater than the total NEM Charges Before Taxes, your balance owed is any current month electric Minimum Delivery Charges in addition to any applicable charges and taxes for the True-Up period.

Since this is your **True-Up statement**, all electric usage charges and credits are reset to zero starting with your next billing cycle.

The Minimum Delivery Charge is billed monthly and credited at True-Up if the total NEM Charges Before Taxes are greater than your current month Minimum Delivery Charges.

Energy Charges are basic commodity costs related to energy usage. These charges will only be billed at True-Up if they are a positive amount and when the total NEM Charges Before Taxes are less than the sum of your total Minimum Delivery Charges and Energy Charges.

**Net Surplus Compensation (NSC):** This credit occurs on the True-Up statement only if the system has exported to the grid more energy than it imported from the grid during the overall 12-month billing cycle. The NSC is based on that month's market price for energy (see current calculation under **Credit for Net Surplus Compensation (NSC)** below).

The True-Up calculations are:

Total NEM Charges Before Taxes	-\$6.96
Total Electric Minimum Delivery Charges	17.62
<b>Total NEM Charges</b>	<b>\$0.00</b>
<b>Credit for Net Surplus Compensation (NSC)</b> (-19,353600 kWh @ \$0.03094/kWh)	<b>-\$0.60</b>

## Summary of Your NEM True-Up Period Charges

The chart below shows how much net energy you generated or consumed each month and the associated charge or credit. The chart provides a summary of the total NEM charges from the start of your annual True-Up period and a monthly snapshot of your net energy use including time periods on your Time-of-Use rate schedule.

## How Your True-Up Is Calculated

This section explains how your year-to-date (YTD) and month over month NEM charges are calculated. Since this is your True-Up statement you are responsible for any charges due. If you generated more energy than you used over the True-Up period, this section would also include your Net Surplus Compensation.

## Electric Charges

**Starting in March 2026, this charge will be replaced with Base Services Charge.** All PG&E customers pay the Minimum Delivery Charges monthly to stay connected to the grid. The Energy Charge is used to pay for the generation of electricity that PG&E provides, and will not affect your monthly bill but may increase the amount owed at True-Up.

Please contact the Solar Customer Service Center at 1-877-743-4112 for questions about your NEM charges.

### Additional Messages

As of March 2026, your electric bill separates some fixed service costs from the price per kWh. Most customers, including those with solar, have a Base Services Charge of approximately \$24 per month and the cost of electricity is lowered. Visit [pge.com/baseservicescharge](http://pge.com/baseservicescharge).

As a customer who receives electricity directly from PG&E, a portion of your electric charges currently includes the Power Charge Indifference Adjustment (PCIA). To learn more, review page 2 of this Energy Statement or visit [www.pge.com/cca](http://www.pge.com/cca).
