

Solar Billing Plan True-Up Statement

Agricultural Business Customer

Service For

Clearly show where your charges were incurred. Some customers receive PG&E service at multiple locations.

Your Account Summary

The account summary provides an overview of charges incurred, payments received, and your total amount due. Solar Billing Plan customers pay current electric charges, after credits are applied, and current gas charges, if applicable.

Your Account Summary

Amount Due on Previous Statement	\$3,234.31
Payment(s) Received Since Last Statement	0.00
Previous Unpaid Balance	\$3,234.31
Current Electric Monthly Charges	\$812.00
Total Solar Billing Plan True-Up Adjustment	17.20
Taxes	63.09

Total Amount Due by 01/29/2026 \$4,126.60

Your Solar Billing Plan Summary: True-Up

This is your True-Up bill. Any remaining energy export credits, after offsetting applicable charges, will rollover for use in the new 12-month PG&E bill period. See the "Solar Billing Plan True-Up" page for more details.

Total Solar Billing Plan True-Up Adjustment \$17.20

Solar Billing Plan Highlights (09/16/2025 - 10/15/2025)

Energy you sent to the grid	-2845 kWh
Credits you earned this bill period	\$351.94
• To view charges and credits for this bill period see "Details of Solar Billing Plan Charges" page.	

At-A-Glance Account Data

Your account number and due date are at the top of every page. It's good to have this information handy if you need to call us about your energy use.

Details of Solar Billing Plan Charges

This section shows the details of Peak, Off-Peak and other charges and credits.

Energy Produced shows energy charges for energy generated by PG&E or a Community Choice Aggregator (CCA), and energy credits for excess renewable energy generated and sent to the grid.

Energy Delivered shows energy charges for energy delivered by PG&E, and energy credits for excess renewable energy delivered to the grid.

Demand Charge reflects the most electricity you used during any 15-minute interval in the billing period. Save by spreading electricity use throughout the day.

8 Energy Export Credit Details

Energy Export Credit Bank

This shows your business earned energy credits for both Energy Produced and Energy Delivered. Use this chart to track credits earned and applied this billing period, and credits saved for the next billing period.

HOW ENERGY EXPORT CREDITS WORK

You may be eligible for up to two types of credits: 1. Energy Produced credits can only offset Energy Produced charges 2. Energy Delivered credits can only offset Energy Delivered charges. Any credits unable to offset your monthly charges will be saved to help offset future bill charges. You can use your Energy Export Credit Bank below to track your monthly credits.

YOUR ENERGY EXPORT CREDIT BANK

	Energy Produced Credits	Energy Delivered Credits	Total Credits
Beginning Balance	\$12.33	\$0.00	\$12.33
Earned This Bill (-2845 kWh)	\$295.57	\$56.37	\$351.94
Applied This Period	-\$307.90	-\$56.37	-\$364.27
Remaining Balance	\$0.00	\$0.00	\$0.00

Any remaining energy export credits will be used to offset applicable charges at True-Up.

KEY TERMS

- **Energy Produced:** This section of the bill shows charges for energy produced by PG&E, and credits for your extra solar energy produced. If you are a customer of a Community Choice Aggregator (CCA), these charges and credits will be determined by your CCA, not PG&E.
- **Energy Delivered:** This section of the bill shows charges for PG&E energy delivered to your business, and credits for your extra solar energy delivered to PG&E.
- **Energy Export Credits:** Credits for excess energy your solar system produces and sends to the grid. Value of credits will vary by hour, month, and weekday/weekend to reflect the value the power provided at a given time.
- **Non-Bypassable Charges:** Charges all PG&E customers pay to help fund energy efficiency programs available to all customers as well as energy assistance programs for lower income households.
