PG&E File Name:	WildfireMitigationPlans_DR_TURN_015-Q04		
Request Date:	February 18, 2021	Requester DR No.:	WMP DR TURN-PGE-001
Date Sent:	February 23, 2021	Requesting Party:	The Utility Reform Network
PG&E Witness:		Requester:	Katy Morsony

**QUESTION 04**

Re the EVM program, in Excel please provide the number of vegetation-caused ignitions in 2018, 2019, and 2020, respectively, for each of the approximately 2,500 miles “worked” under the program in 2019, separately. If it is not possible to provide vegetation-caused ignitions for each of the approximately 2,500 miles separately please provide vegetation-caused ignitions for each “circuit protection zone” that most closely matches the approximately 2,500 miles of the program accomplished in 2019, separately for each zone. Please provide in Excel and include columns and information with identifying information, including circuit protection zone rank and name from PG&E’s EVM prioritization in 2019.

**ANSWER 04**

Please see attachment “WildfireMitigationPlans\_DR\_TURN\_015-Q04Atch01” for the requested data for vegetation caused ignitions in 2018, 2019 and 2020 near miles “worked” under our 2019 EVM program. In the attachment, the circuit protection zone rank is based on the 2021 Wildfire Risk Model. This response also is limited to vegetation caused ignitions within 500 feet of completed 2019 EVM work.
