Data Response

PG&E Data Request No.:	MGRA_002-Q002
PG&E File Name:	WMP-Discovery2026-2028_DR_MGRA_002-Q002
Request Date:	April 11, 2025
Requester DR No.:	MGRA Data Request No. 2
Requesting Party:	Mussey Grade Road Alliance
Requester:	Joseph Mitchell
Date Sent:	April 16, 2025

SUBJECT: GIS DATA

As per the meet and confer between representatives of MGRA and PG&E held on April 2, 2024, PG&E has proposed late delivery of the GIS data requested by MGRA in Data Request 1. PG&E has offered to provide tabular data representing some of the requested information in an expedited manner. Accordingly, MGRA requests the following to be provided in Excel spreadsheet form including latitude and longitude, and including all attributes that are in the geodatabase for the particular data type.

QUESTION 002

PSPS event damage event reports obtained from post-event patrols, including cause for all quarters of 2024.

Answer 002

In response to this request, PG&E is providing non-confidential data for the PSPS Event Damage Feature Classes, as delivered in 2024. Please note that PG&E did not have PSPS events during each quarter nor is every table applicable for relevant damages. For example, there were no support structure or other asset damages, so there are no data to report in the *Pspseventsupportstructure Damagedetail* or *Pspseventotherasset Damagedetail* to report. Attached, please see the responsive files and associated explanations for when PG&E had relevant data to report each quarter for 2024:

- “WMP-Discovery2026-2028_DR_MGRA_002-Q002Atch01.xlsx”
 - PG&E only provided data in this Feature Class for 4Q 2024.
- “WMP-Discovery2026-2028_DR_MGRA_002-Q002Atch02.xlsx”
 - PG&E only provided data in this Feature Class for 4Q 2024.
