**SUBJECT: NON-COMMISSION DATA REQUESTS RELATED TO THE 2026-2028 WMP
(SPD-PGE-WMP2026-022)**

QUESTION 001

Every Friday by noon, provide SPD with copies of any data requests PG&E received from the Office of Energy Infrastructure Safety (Energy Safety) or any other party within the previous seven days. Include any attachments, appendices or datasets in the native format that were submitted to PG&E with the data requests.

ANSWER 001

PG&E objects to this request on the grounds that continuing discovery obligations are not permitted under California law. *Biles v. Exxon Mobil Corp.*, 124 Cal.App.4th 1315, 1328 (2004); Code Civ. Proc. § 2030.060(g). Notwithstanding and without waiving this objection, PG&E responds as follows.

Discovery provided to Energy Safety and other requesting parties is publicly posted and available on PG&E's website at [Community Wildfire Safety Program](#). The native format version (Excel) of PG&E's WMP DR Summary is updated on our website each Thursday.

We will provide confidential versions of any confidential responses and/or attachments submitted to Energy Safety or any other party every Friday. We will do our best to provide such responses by noon each Friday, or as soon as is reasonably possible.
