

**PACIFIC GAS AND ELECTRIC COMPANY  
Wildfire Mitigations Plans Discovery 2026-2028  
Data Response**

<b>PG&amp;E Data Request No.:</b>	SPD_003-Q012
<b>PG&amp;E File Name:</b>	WMP-Discovery2026-2028_DR_SPD_003-Q012
<b>Request Date:</b>	April 24, 2025
<b>Requester DR No.:</b>	SPD-PGE-WMP2026- 003
<b>Requesting Party:</b>	Safety Policy Division
<b>Requester:</b>	Henry Sweat
<b>Date Sent:</b>	May 7, 2025

**SUBJECT: DATA REQUESTS RELATED TO THE 2026-2028 WMP (SPD-PGE-WMP2026-003)**

**QUESTION 012**

Provide the data in Tables 1 through 3 for each of PG&E's 2023-2025 WMP planned Vegetation Management Programs and PG&E's 2026-2028 WMP Programs. There should be one spreadsheet for each of the Vegetation Management Programs listed in Tables 4 and 5.

- a. Discuss how PG&E's evaluation of Focused Tree Inspection, Tree Removal Inventory, and Vegetation Management for Operational Mitigations for consolidation into its distribution inspections may change the forecasts in Table 3.

**TABLE 1  
ACTUAL TREE WORK PERFORMED PER 2023-2025 WMP**

	[Fill in Name of Vegetation Management Program] <sup>1</sup>	
	2023	2024
Number of total trees prescribed to be worked		
Number of total trees worked		
Number of total trees prescribed for removal		
Number of total trees removed		
Number of miles inspected as part of program		

---

<sup>1</sup> The list of vegetation management programs is listed in Table 4.

**TABLE 2  
FORECASTED TREE WORK TO BE PERFORMED PER 2023-2025 WMP**

	[Fill in Name of Vegetation Management Program] <sup>2</sup> 2025
Number of total trees forecasted to be worked	
Number of total trees prescribed for removal	
Number of total trees removed	
Number of miles inspected as part of program	

**TABLE 3  
FORECASTED TREE WORK TO BE PERFORMED PER 2026-2028 WMP**

Table 3: Forecasted Tree Work to be Performed per 2026-2028 WMP	[Fill in Name of Vegetation Management Program] <sup>3</sup> 2026-2028
Number of total trees forecasted to be worked	
Number of total trees prescribed for removal	
Number of total trees removed	
Number of miles inspected as part of program	

For the 2023-2025 WMPs, SPD expects the individual programs to be reported on to include:

**TABLE 4  
LIST OF VEGETATION MANAGEMENT PROGRAMS 2023-2025**

Focused Tree Inspection Program
Tree Removal Inventory
Routine Ground – Transmission
Transmission Second Patrol
Integrated Vegetation Management –Transmission
Distribution Routine Patrol
Distribution Second Patrol
VM for Operational Mitigations (VNOM)

---

<sup>2</sup> The list of vegetation management programs is listed in Table 4.

<sup>3</sup> The list of vegetation management programs is listed in Table 5.

For the 2026-2028 WMPs, SPD expects the individual programs to be reported on to include:

**TABLE 5**  
**LIST OF VEGETATION MANAGEMENT PROGRAMS 2026-2028**

Distribution	Routine Patrol
Distribution	Hazard Patrol (previously referred to as “Second Patrol” or “Tree Mortality”)
Transmission	Routine Patrol
Transmission	Hazard Patrol (previously referred to as “Second Patrol” or “Tree Mortality”)

**ANSWER 012**

Please refer to “*WMP-Discovery2026-2028\_DR\_SPD\_003-Q012Atrch01.xlsx*” for the requested tables for Vegetation Management programs.

Please note the following:

- “Forecasted to be worked” includes an estimate of how many trees may be either pruned or removed as part of that program. “Number of total trees removed” is a forecast. Vegetation Management does not forecast “total number of trees prescribed for removal” for any programs.
- Transmission vegetation management programs do not forecast number of total trees removed. The extent of tree work will be prescribed as needed based on the findings during the programs’ inspection cycles.
- Total mileage is not applicable to the Tree Removal Inventory (TRI) and Vegetation Management for Operational Mitigations (VMOM) programs. TRI is intended to work down the risk associated with the Enhanced Vegetation Management (EVM) trees that were remaining from the program over a period of years.
- Transmission Integrated Vegetation Management (TIVM) is not measured in terms of prescribed trees. Please note the unit of measure for TIVM inspections is acres. Where applicable, acres inspected have been provided in lieu of miles inspected.
- a. At this time, PG&E does not expect further changes to its forecasts in Table 3 due to consolidation of Focused Tree Inspection, Tree Removal Inventory, and Vegetation Management for Operational Mitigations into its distribution programs.
