SUBJECT: MAPPING WDRM v.3 TO v.4 (SPD-PGE-WMP2026-014)

QUESTION 003

In each Quarterly Data Report (QDR), PG&E provides a geodatabase labeled PGE_Year_QX.gdb. Within these quarterly submitted geodatabases, there is a File Geodatabase Feature Dataset labeled PGE_Initiative.

- a. Provide a geodatabase that combines all of the PGE_Initiative File Geodatabase Feature Datasets from 2020-2025.
 - i. The resulting File Geodatabase Feature Dataset should be labeled PGE_Initiative_All.
 - ii. PGE_Initiative_All must allow for a user to be able to map all WMP mitigations that were implemented between 2020-2025.
 - iii. PGE_Initiative_All must retain the same data fields that are found within a PGE_Initiative File Geodatabase Feature Dataset.

ANSWER 003

PG&E met with SPD on October 1, 2025, where it was agreed that SPD could internally review the Spatial Quarterly Data Report data available to perform analysis against. PG&E has agreed to answer additional questions that may arise and to meet with SPD for their analysis.
