**QUESTION 011**

Describe how the data set associated with Question 10 was created.

- a. Was the dataset associated with Question 10 created from a PG&E dataset of all outages?
- b. Was the dataset associated with Question 10 created from a subset of a PG&E dataset of all outages? If so, describe that subset.

**Answer 011**

- a. No, the dataset is comprised of snapshots of only outages in the HFTD from PG&E's ILIS database, which were taken at different points in time. The initial iteration of the analysis included a snapshot of HFTD outages between 2015-2022, then snapshots of 2023 and 2024 HFTD outages were added in early 2024 and early 2025, respectively.
- b. Yes, the dataset was created from a subset of outages recorded in ILIS, specifically HFTD outages between 2015-2024.
