**SUBJECT: OUTAGES, PRIORITY A, MITIGATION EFFECTIVENESS AND WBCA (SPD-PGE-WMP2026-001)**

**QUESTION 028**

Building on PG&E's response in WMP-Discovery2026-2028\_DR\_TURN\_002-Q009Atch01.xlsx, fill out the Table provided below. The rows labeled "HFTD Tier 2 with Spans Outside HFTD" and "HFTD Tier 3 with Spans Outside HFTD" refers to miles that meet the requirements found on pg.16 of Energy Safety's 10-Year Electrical Undergrounding Plan Guidelines.

|   | Total Miles | OH Hardening<br>Miles Year X | OH replaced by UG<br>Miles Year X |
|---|-------------|------------------------------|-----------------------------------|
| Total HFTD                                |             |                              |                                   |
| HFTD Tier 2                               |             |                              |                                   |
| HFTD Tier 2 with<br>Spans Outside<br>HFTD |             |                              |                                   |
| HFTD Tier 3                               |             |                              |                                   |
| HFTD Tier 3 with<br>Spans Outside<br>HFTD |             |                              |                                   |
| Additional HFRA                           |             |                              |                                   |

**Answer 028**

PG&E does not have the requested information and does not maintain the data required to compile such information. PG&E would need to expend significant time, effort, and cost to perform the evaluations necessary to create the information. Please let us know if you would like to have a call to discuss this further.
