PG&E File Name:	WMP-Discovery2023-2025_DR_SPD_019-Q014		
Request Date:	August 29, 2024	Requester DR No.:	SPD_WSPS_PG&E_2024_010
Date Sent:	September 12, 2024	Requesting Party:	Safety Policy Division
PG&E Witness:		Requester:	Henry Sweat

SUBJECT: DATA REQUEST SPD_019 (SPD_WSPS_PG&E_2024_010):

QUESTION 014

Provide Ignition reports (also known as PIIRs) for CPUC reportable ignitions that occurred on days when EPSS was enabled in 2024. Reports already provided in response to Question 13 need not be resubmitted in response to Question 14.

ANSWER 014

PG&E interprets this request as asking for ignition reports for CPUC reportable ignitions which occurred on primary lines on EPSS enabled circuits in 2024.

PG&E is still undergoing investigations for some ignitions that occurred on days when EPSS was enabled in 2024. PG&E has provided reports for ignitions where the investigations have concluded.

Please see the table below for PIIRs for CPUC reportable ignitions which occurred on primary lines on EPSS enabled circuits in 2024 that were not provided in Question 13.

CPUC Reportable Ignition	Date of Ignition	Attachment Name
20240434	May 18, 2024	WMP-Discovery2023-2025_DR_SPD_019-Q014Atch01CONF.pdf
20240605	June 7, 2024	WMP-Discovery2023-2025_DR_SPD_019-Q014Atch02CONF.pdf

Please note, these reports are preliminary and are based on available information at the time they were drafted. Event data is subject to change based upon subsequently discovered information.
