QUESTION 006

Provide an update to the chart in the attached presentation which describes the percentage of circuit miles at each FPI level for each month which includes data from years 2021-2024 (see slide 38). SPD is primarily interested in the data – so it is not necessary to reproduce the exact chart if this data is easier for PG&E to provide in another way.

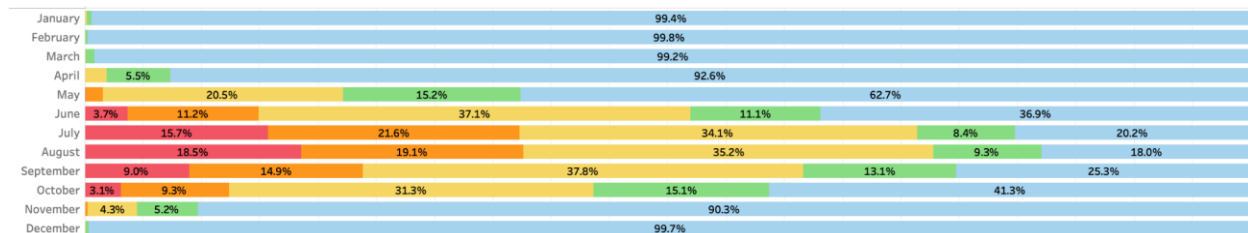

ANSWER 006 SUPPLEMENTAL 01

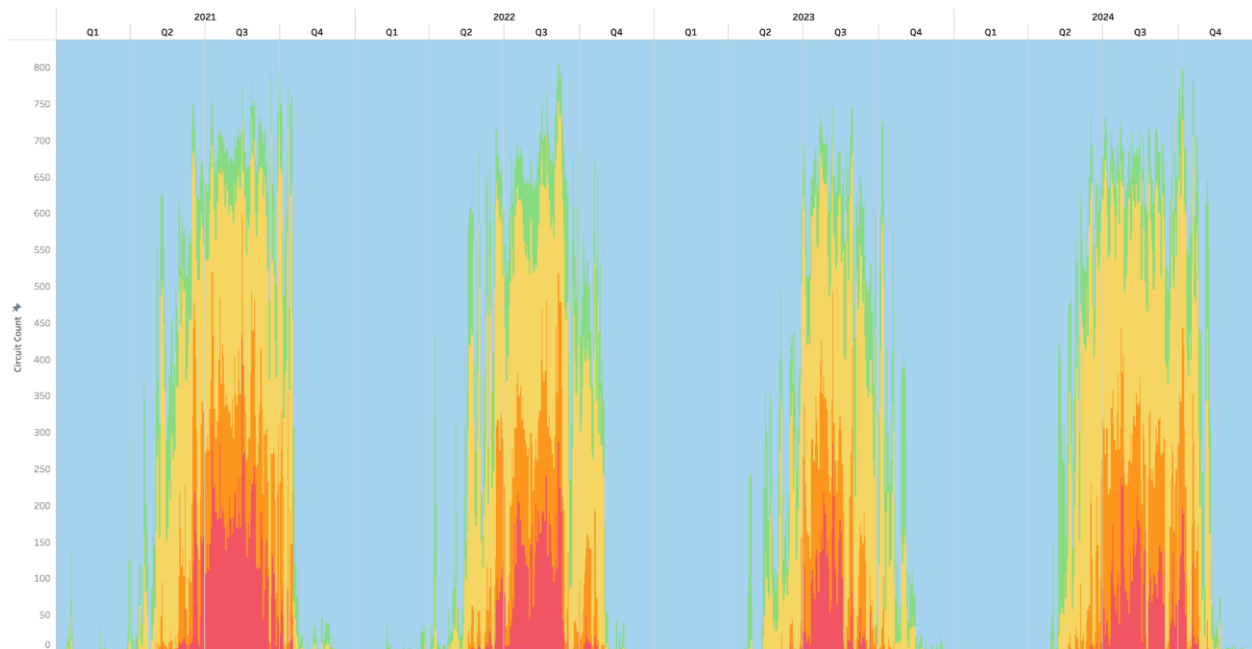

Please see below for updated images including data for 2024.

ANSWER 006

Please see attachment “*WMP-Discovery2023-2025_DR_SPD_024-Q006Atch01.pdf*” for an updated chart. Please note that our data for this chart is only final for the time period of 2021-2023, and we therefore cannot provide data for 2024. We will provide the 2024 data once finalized.
