

Community Wildfire Safety Program PG&E Wildfire Safety Webinar – El Dorado and Placer Counties – Post-Event Report

On March 26, 2024, PG&E held a Wildfire Safety Webinar for El Dorado and Placer County customers, in accordance with the Settlement Agreement approved by the May 7, 2020, California Public Utilities Commission (CPUC) Decision (D.) 20-05-019 Order Instituting Investigation (OII) regarding the 2017 and 2018 wildfires.

PG&E is listening to customer feedback to help understand how we can continue to improve wildfire prevention efforts, including the Public Safety Power Shutoff (PSPS) and Enhanced Powerline Safety Settings (EPSS) Programs. The purpose of the event was to share safety and prevention activities, utility service-related information and customer resources for all customers, gather input and respond to questions.

The following report has been prepared to provide an overview of the webinar and includes:

- A high-level event summary
- A description of outreach for the event
- An overview of the feedback received
- A link to the event presentation and recording

Wildfire Safety Webinar Summary

- **Date:** March 26, 2024
- **Time:** 5:30 p.m. – 6:30 p.m.
- **Total Attendees:** 64
- **PG&E Presenters:**
 - Joe Wilson, Regional Vice President, North Valley & Sierra Region
 - Tom Smith, Senior Manager, Customer Engagement and Strategy
 - Wes Anderson, Regional Senior Manager, North Valley & Sierra Region
 - Ayla Tucker, Local Government Affairs

The event featured a 60-minute presentation on PG&E's Community Wildfire Safety Program followed by a Q&A session. The presentation focused on 2024 updates, PG&E's layers of protection, Enhanced Powerline Safety Settings (EPSS), Public Safety Power Shutoffs (PSPS) and customer resources. Participants could either join via the virtual conference platform or by calling into a toll-free number. Closed captioning was available in English, Spanish and Chinese.

Event Outreach

PG&E conducted outreach through a variety of channels to drive attendance to the event. Outreach included:

- Email invitations sent to all electric customers with an email address listed
- Social media postings on Facebook, Instagram, Twitter and Nextdoor
- News release and media advisory
- Outreach to city, county and tribal officials as well as through a variety of additional channels

Sample invitations and outreach materials can be found in Appendix A.

Question and Answer Session Summary

Throughout the presentation, participants submitted questions and comments for PG&E's subject matter experts through a Q&A function on the webinar platform. A total of 3 questions and comments were received.

The Q&A portion focused on the following themes:

- Enhanced Powerline Safety Settings (EPSS)
- Vegetation management
- Undergrounding

The full list of questions/comments received during the Q&A session can be found in Appendix B.

Recording and Presentation Availability

A recording of the event will be available at https://www.youtube.com/watch?v=VI6RRnV_azQ.

Additional presentations and recordings of past PG&E Wildfire Safety Webinars are available at pge.com/webinars, including:

- Wildfire Safety Webinars with a county-by-county focus on safety work
- Webinars for school districts and administrators
- In-language Wildfire Safety Webinars

Appendix B:
QUESTIONS RAISED DURING THE EVENT

The below questions and comments have been listed in the order received.

- How do you determine when to shut off the power? Once, there was no wind in my area at all, and power was shut off. Also, I think that your workers should let us know when they are coming onto our property, even just for inspection!
- Appreciate the work done to clear trees and vegetation around power lines. Just curious if PG&E engages in planting trees in alternative areas to replace the one million trees to mitigate the impact to our environment.
- Does burying power lines increase the ability to get insurance? Policies in this area are cancelled.
