

## **Community Wildfire Safety Program PG&E Wildfire Safety Webinar – Napa and Marin Counties – Post-Event Report**

On June 26, 2024, PG&E held a Wildfire Safety Webinar for Napa and Marin County customers, in accordance with the Settlement Agreement approved by the May 7, 2020, California Public Utilities Commission (CPUC) Decision (D.) 20-05-019 Order Instituting Investigation (OII) regarding the 2017 and 2018 wildfires.

PG&E is listening to customer feedback to help understand how we can continue to improve wildfire prevention efforts, including the Public Safety Power Shutoff (PSPS) and Enhanced Powerline Safety Settings (EPSS) Programs. The purpose of the event was to share safety and prevention activities, utility service-related information and customer resources for all customers, gather input and respond to questions.

The following report has been prepared to provide an overview of the webinar and includes:

- A high-level event summary
- A description of outreach for the event
- An overview of the feedback received
- A link to the event presentation and recording

### Wildfire Safety Webinar Summary

**Appendix B:**  
**QUESTIONS RAISED DURING THE EVENT**

The below questions and comments have been listed in the order received.

- Our house is surrounded by tall, healthy, California Bay trees. Are they a hazard? Do they possibly provide a barrier to embers? What should we do about them?
- Can Dave please restate the number of miles of undergrounding in Napa County? I thought I heard 90 miles and that sounds very high.
- Aside from rocks or pavement, is there any fire-resistant ground cover to put within 5' of the residence?
- So, the answer looks to be "no"...
- How do I know which tier our house is in (1, 2, or 3)?
- Thanks!
- Great webinar! Thanks.
- Good job!
