**Re: Notice of Proposed Real Property Disposition – West End of Otterson
Street, San Jose**

Dear Tribal Leader:

We are writing to notify you that Pacific Gas and Electric Company (PG&E) plans to sell a property of approximately 1.259 acres in San Jose. The property consists of a portion of Assessor's Parcel Number 261-35-035 that is currently being utilized as an electric substation. The sale of this property is part of PG&E's broader plan to modernize substation infrastructure by constructing an upgraded facility at a location better suited to meet future electrical demand and improve system reliability. PG&E intends to decommission this substation in 2029 and complete the sale thereafter. The enclosed Property Information Sheet provides additional factual background relating to the property.

A record search of the California Native American Heritage Commission's Sacred Lands File has identified the above-referenced property to be within your Tribe's ancestral territory. We are providing this notification consistent with the requirements of the California Public Utilities Commission's Land Disposition Policy adopted December 5, 2019, *Investor-Owned Utility Real Property-Land Disposition – First Right of Refusal for Disposition of Real Property Within the Ancestral Territories of California Native American Tribes*.¹ (the Tribal Land Policy). Under this Policy, the tribe is provided a right of first offer on the real property before PG&E may put the property on the market.

In accordance with the Tribal Land Policy, the tribe has thirty (30) days to respond to this notification as to its interest in acquiring the property by providing a written offer. PG&E supports the Commission's objective of ensuring tribal interests are appropriately considered in any sale of its property. For this reason, we are offering to consult with your Tribe regarding its interest in acquiring the property within the 30 days.
