

Outage Preparedness Checklist for Renters

To help prevent wildfires, we may need to turn off power when risk is high in your neighborhood. This is called a **Public Safety Power Shutoff (PSPS)**.

Complete this checklist to prepare for potential outages:

- ☐ Sign up for PSPS alerts so you can get advanced notice at pge.com/addressalerts.
- ☐ Build an emergency plan and supply kit. Include items like flashlights and 3-5 days worth of food and water for your household, including animals. For more guidance, visit pge.com/safetyactioncenter.
- ☐ Determine at least two evacuation routes from your home. Consider how you will exit without garage openers, key cards, etc.
- ☐ If you rely on power for your health or safety, get preparedness resources and support programs at pge.com/afn.
- ☐ Assess medications you may need and if they need to be kept cool. Ask your doctor for a backup supply and prepare a cooler and ice.
- ☐ If you rely on powered medical devices, keep them charged and see if you qualify for a portable backup battery at pge.com/portablebattery.
- ☐ Ask your landlord about their outage communication and mobility evacuation plans as elevators, wheelchair lifts and automatic doors may be down.

You don't have to plan for outages alone. Contact **211 California** to get free, live personalized guidance and information on local programs and resources. Call **211** or text "**PREPARE**" to **211-211**.

See additional outage planning steps on the second page ➞

Additional Outage Planning Steps

During an outage:

- ☐ Keep fridges/freezers shut and and get ice for food and medicine.
- ☐ Check in on neighbors and stay safe together.
- ☐ During a PSPS, call **211 California** to find food replacement, hotel stays and accessible transit. Get more resources at pge.com/countyresources.
