

# Your guide to energy savings and bill management resources

Tips to manage energy usage and programs to help manage bills—all year round.

## JANUARY–MARCH

### TIP 1:

#### Winter Savings Tips.

Take advantage of no-cost and low-cost energy-efficiency tips to stay warm and save energy.

### TIP 2:

Discover flexible ways to pay. Sign up for **Flexible Payment Arrangements** to schedule payment of your current balance over months or choose a later date to pay the full amount.

### TIP 3:

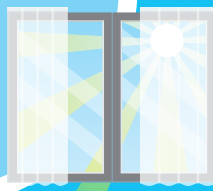

Enroll in **Budget Billing** to keep your monthly payments balanced and reduce spikes on your bills.

### TIP 4:

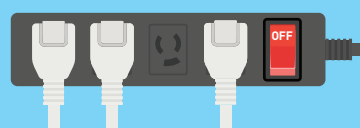

#### Daylight Savings: Let the natural light shine!

More daylight means less energy spent on lighting.

### TIP 5:

Use and switch off power strips to reduce your electricity use and **save up to \$100** per year.

**BONUS TIPS!**

### TIP 6:

Save time and run one less errand. Find easy ways to **pay your bill online or by phone.**

### TIP 1:

#### Summer Bill Forecast Alerts.

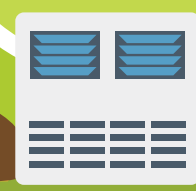

Receive an alert to stay on budget when your bill is expected to go over the amount you choose.

**BONUS TIP!**

### TIP 2:

**Spring Cleaning!** Clear debris in the area around your air conditioner vents so it can easily ventilate.

## APRIL–JUNE

### TIP 4:

Explore **Financial Assistance and Support Programs.** New income guidelines reset each June.

### TIP 5:

**Save an average of \$350 a year with HomeIntel.** Receive a free, detailed home energy analysis with help from a personalized energy coach. Get customized tips and monthly reports to track your usage and savings.

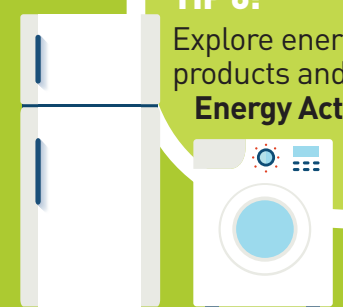

### TIP 3:

**Earth Day Reminder.** Go paperless! Sign up for **Paperless Billing** and view, pay and print your energy bill online.

### TIP 6:

Explore energy-saving ideas, products and rebates with the **Energy Action Guide.**

## OCTOBER–DECEMBER

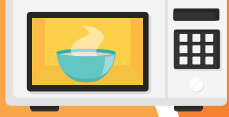

### TIP 2:

Save time and run one less errand. Find easy ways to **pay your bill online or by phone.**

### TIP 3:

Reheating leftovers in a **microwave** takes less time and uses **up to 80% less energy** than a standard oven.

**BONUS TIP!**

### TIP 1:

#### Winter Bill Forecast Alerts.

Receive an alert to stay on budget when your bill is expected to go over the amount you choose.

### TIP 4:

**DIY Toolkit.** Build your winter toolkit with items found at local stores, and **save up to \$955 a year** on your energy bill.

### TIP 5:

**Clean air filters every 3 months.** Dirty filters slow down air flow, and the system will work harder to keep you warm or cool.

**BONUS TIP!**

### TIP 6:

**Holiday Lighting.** LEDs are safer, more durable and use **75% less energy** than other lighting options.

**BONUS TIP!**

### TIP 6:

**Hang laundry outside.** Take advantage of late sunsets and warm evenings to bypass your dryer and let your clothes air dry.

**BONUS TIP!**

### TIP 5:

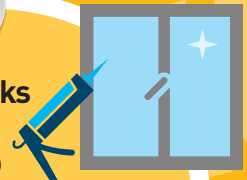

Apply for **Medical Baseline** if you need additional assistance and depend on power for certain medical needs.

**BONUS TIP!**

### TIP 4:

**Caulk gaps and cracks** around doorframes and windows to keep hot air out and cool air in.

## JULY–SEPTEMBER

### TIP 1:

**Summer Savings Tips.** Take advantage of no-cost and low-cost energy-efficiency tips to stay cool and save energy.

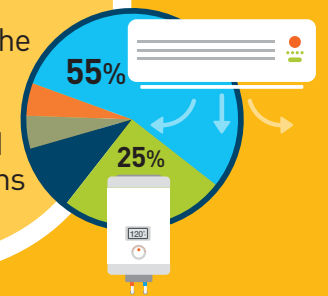

### TIP 2:

**Go to a community cooling center.** Or enjoy an afternoon at the pool or park instead of turning on your AC.

### TIP 3:

Take a free, 5-minute **Home Energy Checkup.** Find out what appliances use the most energy in your home and get personalized recommendations to help you save.
