

Tricky transcript

E-man: Jeramy, check this.

Jeramy: Let's hear it.

E-man: This comes from Trick AD 9364. "Wonder how much these rate hikes have to do with people plugging in their (BEEP noise)."

Jeramy: Dude, you can't say (BEEP noise).

E-man: People charging their name brand electric vehicles. It doesn't raise the rates. It's the opposite.

Jeramy: The opposite.

E-man: The opposite. The more people plugged into the grid, the more the shared costs. It's like ten people buying a pizza. It costs less than five people paying for it. Energy, the same deal.

Jeramy: Now I want pizza.
