Opportunity Description:

Background:

Pacific Gas and Electric Company, incorporated in California in 1905, is one of the largest utility companies in the United States. Based in Oakland, the company is part of [PG&E Corporation](#).

There are approximately 23,000 employees who carry out Pacific Gas and Electric Company's primary business, the transmission and delivery of energy. The company provides [natural gas](#) and [electric service](#) to approximately 16 million people throughout a 70,000-square-mile service area in northern and central California. PG&E service area stretches from Eureka in the north to Bakersfield in the south, and from the Pacific Ocean in the west to the Sierra Nevada in the east.

Pacific Gas and Electric Company and other energy companies in the state are regulated by the [California Public Utilities Commission](#). The CPUC was created by the state legislature in 1911.

PG&E is focused on rebuilding trust with the customers and hometowns we are privileged to serve and everyone we work with as we deliver on our triple bottom line approach of serving People, the Planet, and California's Prosperity. As we build California's energy future, we will continue our efforts to ensure that businesses have an equitable opportunity to compete for PG&E's business.

PG&E is committed to helping customers optimize energy efficiency and to electrify affordably by providing customers with tools, programs, and resources to help them make informed energy efficiency and electrification choices.

Contract Opportunity Description:

Pacific Gas and Electric Company (PG&E) is seeking proposals from qualified contractors to provide Commercial Food Service energy efficiency and electrification classes and Induction Cooking Demonstrations services that support PG&E's Workforce Education & Training (WE&T) program and related customer and market-facing initiatives. Responsibilities include developing, coordinating, delivering, and continuously improving technical classes and hands-on induction cooking demonstrations that advance energy efficiency and building electrification in buildings and facilities in PG&E's service territory.

Through this Request for Proposals (RFP), PG&E seeks experienced organizations capable of delivering high-quality, accurate, safe, and engaging educational classes and demonstrations for a range of commercial food service professionals, including but not limited to, trade professionals, business owners, chefs, educators, and other stakeholders who influence equipment specification and selection, commercial kitchen design, construction, operations, and maintenance.

Services under this RFP will support PG&E program objectives by increasing awareness, building practical skills, addressing market barriers, and enabling informed decision making related to energy efficiency and electrification technologies for commercial and residential kitchens and facilities.

Conduct Requirements:

Suppliers, as well as their employees, subcontractors, and sub-suppliers, must adhere to the principles and standards outlined in our Supplier Code of Conduct as they provide goods and services to PG&E. Review Code and understand its obligations here:
