

## PG&E – MCE Joint Rate Comparisons

As a part of our mutual commitment to support your energy choice, Marin Clean Energy (MCE) and PG&E have partnered to create a comparison of our typical electric rates, average monthly charges and generation portfolio contents. Below you will find a representative comparison of our rates, average monthly bills and power generation portfolio content based on customer class. To find your specific electric rate, please scroll down to your rate plan to view the rate and bill comparisons.

## Definitions

**Generation Rate** is the cost of creating electricity to power your home or business. The generation rate varies based on your energy provider and the resources included in your energy provider's generation supply.

**PG&E Delivery Rate** is a charge assessed by PG&E to deliver electricity to your home or business. The PG&E delivery rate depends on your electricity usage, but is charged equally to both PCE and PG&E customers.

**PG&E PCIA/FF** represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee surcharge (FF). The PCIA is a charge to recover PG&E's costs for generation resources that are currently above the market rate. These resources were committed to prior to a customer's switch to a third-party electric generation provider. PG&E acts as a collection agent for the Franchise Fee surcharge, which is levied by the California Public Utilities Commission on behalf of cities and counties in PG&E's service territory for all customers. The costs for resources included in the PCIA and FF surcharges are included in the generation rate for PG&E bundled service customers.

## Where Do I Find My Electric Rate Schedule?

Need some help finding your electric rate? Go to the "Electric Delivery Charges" section of your energy statement - you'll find your electric rate in the upper left.

The image shows a screenshot of a PG&E Energy Statement. At the top left, it says "ENERGY STATEMENT" with the PG&E logo and the website "www.pge.com/MyEnergy". To the right, it lists "Account No: 0000000000-0", "Statement Date: 05/30/2014", and "Due Date: 06/20/2014".

The main section is titled "Details of PG&E Electric Delivery Charges" for the period "04/24/2014 - 05/22/2014 (29 billing days)". It includes "Service For: 123 Main St" and "Service Agreement ID: 1334567890". A red box highlights the "Rate Schedule: E1 X Residential Service".

Below this, there are two tables showing tier usage. The first table is for "04/24/2014 - 04/30/2014" and the second is for "05/01/2014 - 05/22/2014". Each table has columns for "Your Tier Usage" (1, 2, 3, 4) and lists various charges like Tier 1 Allowance, Tier 1 Usage, Generation Credit, Power Charge Indifference Adjustment, and Franchise Fee Surcharge.

At the bottom, it states "Total PG&E Electric Delivery Charges \$17.42" and includes a note: "2012 Vintaged Power Charge Indifference Adjustment."

On the right side, there is a "Service Information" section with details like Meter # (12345678910), Current Meter Reading (14,284), Prior Meter Reading (13,981), Total Usage (303,000,000 kWh), Baseline Territory (X), Heat Source (Not Electric), Serial (Y), and Rotating Outage Block (50).

**Look here to identify your electric rate schedule. Once you have that, you can find your rate comparison below.**
