## Why am I receiving this notice?

**Every three years, PG&E is required to file a Nuclear Decommissioning Cost Triennial Proceeding application with the CPUC. The 2021 application was filed on December 14, 2021 and includes updated cost estimates for decommissioning activities related to Diablo Canyon and Humboldt Bay power plants.**

The application also includes a reasonableness review for certain costs as well as a review to ensure compliance with previous rulings and related regulations.

## How could this affect my monthly bill?

**The proposals included in this application will not impact customer bills or rates.**

The updated decommissioning cost estimate does not require further funding from customers and PG&E is not requesting to collect any new costs from customers.

## How does the rest of this process work?

**This application has been assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process.**

The Administrative Law Judge will issue a proposed decision that may adopt PG&E's application, modify it or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding will review PG&E's application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels.
