

PG&E IN YOUR COMMUNITY

As a company serving Californians for more than a century, we're in a unique position to help preserve and build on what makes our state great. We start by understanding what our customers need and then design unique community programs that deliver support for the customers who need us most.

EDUCATION

To create opportunities for students in our service area, especially those interested in careers related to science, technology, engineering, and math (STEM), we provide scholarships for higher education and grants to help students learn about energy and the environment in new and exciting ways.

ECONOMIC & COMMUNITY VITALITY

To foster safe and vibrant neighborhoods, we help communities prepare for and recover from natural disasters, provide career training, support local businesses, and offer energy assistance to low-income families.

ENVIRONMENT

To preserve California's natural resources, fish and wildlife habitats, parks, and recreation areas, our environmental programs promote renewable energy, environmental education, and conservation.

PG&E IN YOUR COMMUNITY

EDUCATION

>\$3M

provided in PG&E **Bright Minds Scholarships** to help 300 students, 60% of whom majored in STEM fields, complete their higher education

>\$2M

committed to prepare hundreds of students for careers in STEM through extensive training programs at our **New Energy Academies**

>\$2M

awarded since 2005 in **Bright Ideas Grants** to public schools to develop projects and curriculum focused on renewable energy, conservation, and environmental stewardship

ECONOMIC & COMMUNITY VITALITY

1000

local youth provided career training and 274 placed in full-time paid summer jobs through the PG&E **Summer Jobs Program**

>1M

Californians educated on how to respond to a disaster through the Red Cross **Ready Neighborhoods** program and our \$2.5M contribution to the Red Cross

25 years

of partnership between PG&E and The Salvation Army allowing the **REACH** program to provide thousands of families with energy credits when they need it most

\$200K

awarded each year in PG&E **Economic Vitality Grants** to boost local job creation and promote economic opportunity

ENVIRONMENT

132K^{lbs}

of CO₂ prevented from being released into the environment over the 30-year lifespan of each solar electrical system provided by PG&E's **Solar Habitat Program**, which also saves families an average of \$500 per year in energy costs

\$2M

committed since 1999 through the PG&E **Nature Restoration Trust** to protect natural habitats across Northern and Central California
