

Residential Rates

March 1, 2016 Rate Change

Charges for your electric service include both generation (electricity) and transmission & distribution (delivery of electricity) components. PG&E's transmission & distribution rates are applicable to all customers. PG&E's generation rate is not applicable to customers who do not receive their generation from PG&E, such as CCA customers or Direct Access customers. Generation rates for these customers are determined by their energy service provider, although PG&E may also include PCIA and FFS charges to reflect the full cost of your generation services. See definitions below and on Page 2 of your bill.

Residential Rate Schedules	Pricing Tier	Vintage 2009 Rates *			Vintage 2010 Rates *			Vintage 2011 Rates *			Vintage 2012 Rates *			Vintage 2013 Rates *			Vintage 2014 Rates *			Vintage 2015 Rates *		
		Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference

Residential Rates

March 1, 2016 Rate Change

Charges for your electric service include both generation (electricity) and transmission & distribution (delivery of electricity) components. PG&E's transmission & distribution rates are applicable to all customers. PG&E's generation rate is not applicable to customers who do not receive their generation from PG&E, such as CCA customers or Direct Access customers. Generation rates for these customers are determined by their energy service provider, although PG&E may also include PCIA and FFS charges to reflect the full cost of your generation services. See definitions below and on Page 2 of your bill.

Residential Rate Schedules	Pricing Tier	Vintage 2009 Rates *			Vintage 2010 Rates *			Vintage 2011 Rates *			Vintage 2012 Rates *			Vintage 2013 Rates *			Vintage 2014 Rates *			Vintage 2015 Rates *

Residential Rates

March 1, 2016 Rate Change

Charges for your electric service include both generation (electricity) and transmission & distribution (delivery of electricity) components. PG&E's transmission & distribution rates are applicable to all customers. PG&E's generation rate is not applicable to customers who do not receive their generation from PG&E, such as CCA customers or Direct Access customers. Generation rates for these customers are determined by their energy service provider, although PG&E may also include PCIA and FFS charges to reflect the full cost of your generation services. See definitions below and on Page 2 of your bill.

Residential Rate Schedules	Pricing Tier	Vintage 2009 Rates *			Vintage 2010 Rates *			Vintage 2011 Rates *			Vintage 2012 Rates *			Vintage 2013 Rates *			Vintage 2014 Rates *			Vintage 2015 Rates *		
		Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference	Total Bundled Rate (\$/kWh) paid by customers who receive all services from PG&E	Non-Generation Rate (\$/kWh) paid by customers who receive their generation from other suppliers	Difference

Residential Rates

March 1, 2016 Rate Change

Charges for your electric service include both generation (electricity) and transmission & distribution (delivery of electricity) components. PG&E's transmission & distribution rates are applicable to all customers. PG&E's generation rate is not applicable to customers who do not receive their generation from PG&E, such as CCA customers or Direct Access customers. Generation rates for these customers are determined by their energy service provider, although PG&E may also include PCIA and FFS charges to reflect the full cost of your generation services. See definitions below and on Page 2 of your bill.

Residential Rate Schedules	Pricing Tier	Vintage 2009 Rates *			Vintage 2010 Rates *			Vintage 2011 Rates *			Vintage 2012 Rates *			Vintage 2013 Rates *			Vintage 2014 Rates *			Vintage 2015 Rates *
