

Energy Advisor for Business

SEPTEMBER 2014

SHARE

Personal appliances can mean greater energy expenses

From mini fridges to space heaters, personal appliances in the workplace can reduce the effectiveness of energy-management efforts and increase energy costs.

Green buildings: Saving energy and improving value

In addition to energy savings, green building certifications can boost your bottom line, enhance brand value, and improve public opinion.

[Go green](#)

Turn old, inefficient equipment into money-saving machines

Your business could qualify for PG&E's 0% Energy Efficiency Financing loans of \$5,000 to \$100,000, after incentives. And conveniently repay through your energy statement.
