

Energy Advisor for Agricultural Business

SEPTEMBER 2015

CONNECT WITH US

Grow your bottom line with Variable Frequency Drives

Using less water means saving more money, as well as helping California overcome the drought. Do just that with VFDs, available with a \$40/hp/motor rebate on new and existing well and booster pumps.

[Save with VFDs »](#)

Boost your savings with pump tests and increased rebates

Enhancing your irrigation pump's efficiency helps save water and money. Schedule your pump test and check out our increased pump overhaul rebates.

[Improve your pump »](#)

Harvest safely

When harvest time is here, there's plenty to do – and fast. But skimping on safety measures is never a sensible shortcut. Keep your crew safe with these easy tips.

[Get tips »](#)

Time for your annual rate check

Weather, growing conditions and prices can all change from day to day. That's why it's smart to get an annual electric analysis to make sure you're on the best agricultural electric plan.

[Review your rate plan »](#)

Find ways to save with a farm energy audit

Whether you have 10,000 acres or 50 acres, PG&E has resources to help you curb energy waste and reduce operating costs. Discover the savings opportunities!

[See your audit options »](#)

Agricultural Business Resources

[Apply for Rebates »](#)

Offset the cost to upgrade operations with rebates on new energy-efficient technology.

[Get a 0% Loan »](#)

Join other agricultural businesses that received 0% financing for new energy-efficient equipment.

[Change or Add Service »](#)

Increasing the size of your irrigation pump or adding new services? The new Customer Connections tools make it easy to apply online and check your status.

Together, Building
a Better California
