We are here to help

Pacific Gas and Electric Company (PG&E) provides programs like the California Alternate Rates for Energy (CARE) Program and the Energy Savings Assistance Program for customers who need it the most, because we know that sometimes our customers need a little energy assistance.

We understand that financial challenges can happen to anyone, at any time. The CARE and Energy Savings Assistance Programs are just a few of the ways we can help our customers save.

For more information about PG&E’s assistance programs, visit pge.com/financialassistance. For the Energy Savings Assistance Program, visit pge.com/energysavings, or contact the CARE Program at 1-866-743-2273.

For telecommunications assistance for hearing- or speech-impaired customers who use TDD and TTY communications systems, call 1-800-652-4712.

If you are unable to access the TDD/TTY number, call California Relay Line at 1-800-735-2929.

Choose the best rate plan for you

Rate plan choices put you in control. Are you on the best rate plan for how you use energy?

Payment support

Receive a one-time energy credit
pge.com/reach
You may be qualified to receive up to a $300 energy credit through Relief for Energy Assistance through Community Help (REACH).

Balance your monthly bill
pge.com/budgetbilling
With Budget Billing, your monthly bill will be averaged out to allow you to budget your energy costs and eliminate big payment swings.

Arrange more time to pay
pge.com/paymentarrangement
If you cannot pay your bill on time or in full, you can set up a Payment Arrangement to extend your due date.

Secure your account and waive your deposit
1-800-743-5000
Bill Guaranty allows you to secure your account by having another qualifying PG&E customer sign on your behalf. It also serves as an alternative deposit.

Send past-due reminders to a friend or relative
pge.com/thirdpartynotification
With Third-Party Notification, you can name a friend or relative to receive duplicate copies of past-due payment notices. The designated person is not responsible for paying the bill, but can contact PG&E to help find a solution.

More ways to save

Three simple steps to energy bill savings

1. **Monthly discount**

   California Alternate Rates for Energy (CARE) Program

   More than 1.4 million of PG&E customers have already enrolled in the CARE Program. Check the chart below to see if you qualify. Apply at pge.com/care.

</table>

   *Before taxes based on current income sources. Valid through May 31, 2018.

   If you do not qualify for CARE, you may still be eligible for the Family Electric Rate Assistance (FERA) Program, which offers a discount on monthly bills for households of three or more. Apply at pge.com/fera.

2. **Home improvements at no cost**

   **Energy Savings Assistance Program**

   If you are eligible for the CARE Program, you may also qualify for the Energy Savings Assistance Program.

   If you live in a house, apartment, or mobile home that is five years or older, you could receive free improvements to keep your home more energy efficient, safe and comfortable. Both renters and owners are eligible. Common improvements may include:

   - Appliances to replace your old refrigerator, furnace and water heater
   - Insulation and weatherproofing services to keep your home cooler in the summer and warmer in the winter
   - ENERGY STAR® Advanced LED light bulbs that use up to 80 percent less energy than traditional light bulbs

   **Participating contractors for PG&E will:**
   1. Assess your home’s energy efficiency
   2. Install customized home improvements
   3. Repair or replace appliances, if needed, after conducting a natural gas safety test
   4. Perform a post-installation inspection, if needed

   Apply at pge.com/energysavings.

3. **Ongoing savings**

   **Manage your cooling and heating costs**

   In the summer, set your air conditioner to 78 degrees Fahrenheit or higher. Visit one of our community cooling centers when temperatures are unusually high. In the winter, set your heater to 68 degrees Fahrenheit or lower during the day and 55 degrees Fahrenheit at night. Visit pge.com/coolingcenter.

   **Stop paying to power unused electronics**

   Turn off and unplug computers, TVs, phone chargers, entertainment consoles, coffee makers and other devices. The average U.S. household spends $100 per year powering electronics that have been turned off or are in standby mode.

   **Wash full loads of laundry using cold water**

   Today’s detergents work well in cold water, saving about 90 percent of the energy your washing machine would use to heat water.

   **Use your refrigerator efficiently**

   Set your refrigerator from 38 to 40 degrees Fahrenheit and your freezer from 0 to 5 degrees Fahrenheit. Make sure the coils are clean and have room for air circulation.

   *Furnace and water heater repair or replacement may be available to eligible homeowners if PG&E determines that existing natural gas units are inneficient or unsafe.

Medical Baseline

If you depend on life-support or other equipment due to medical needs, you may be eligible for additional energy at the lowest price through the Medical Baseline Program. Apply at pge.com/medicalbaseline.
