A New Energenius® Program –
Kindergarten – Grade 1

We are Saving Energy! Program

Through a song and classroom activities, students discover simple things they can do at home and at school to save energy and conserve natural resources. They learn good energy habits like turning off lights when they leave a room. Classroom activities revolve around the energy-saving situations in the “We are Saving Energy!” big book.”

We are Saving Energy! Curriculum – 3 lessons

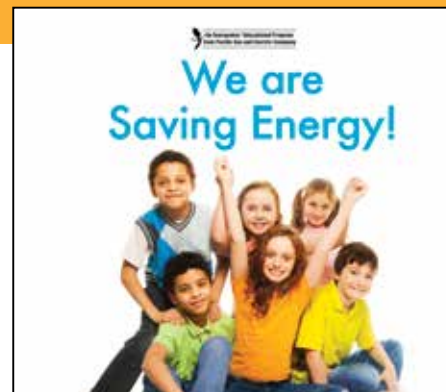

A teacher’s guide to using the program includes step-by-step procedures for presenting the lessons and ideas for extension activities. The program is correlated to California Common Core State Standards and Next Generation Science Standards. **One per teacher.**

We are Saving Energy! Big Book

This large and colorful book is used to teach energy-saving habits as students sing-along to the tune of “The Farmer in the Dell.” Each photo illustrates an energy-saving action a young student could take. **One per teacher.**

We are Saving Energy! Calendar and Activity Workbook

Students receive their own colorful 12-month calendar full of photos of children their age doing energy-saving activities. The workbook also has activities they can complete in class or at home with parents or guardians. **One per student.**
