

# FREE! From PG&E

## A New Energenius® Program – For grades 2-3 Energy and Me!

The Energenius program, **Energy and Me!**, helps young students identify ways they waste energy at school and in their homes and, through games and exercises that involve their families, gives them ways to adopt habits that save energy.

### Energenius Curriculum – 4 lessons

The teacher guide provides detailed lesson plans, background information, a glossary, and ideas for extension activities. It also outlines the correlations of this program to California Content Standards.

**One per teacher.**

### Energy and Me! Workbook

This colorful 48 page booklet provides a myriad of activities for students to complete in class or at home. There are readings, exercises, and investigations to help them understand how they can save energy and conserve natural resources. There are suggested research activities for students to do using the Internet and an art project using recycled materials. **One per student.**

### Energy and Me! Calendar and Stickers

With this calendar, students learn how a year is organized and receive an energy habits message each month. Students also receive a set of stickers for special days and dates, holidays and just for fun.

**One set per student.**

### Energy and Me and We Make a Difference Posters

Students each contribute their ideas to the two large class posters that are used throughout this unit. Although the focus at the beginning is on “Me” they complete the second poster with their energy-saving ideas on how “We” can make a difference.

**One of each poster per classroom.**
