True-up Energy Statement

Your Account Summary
A snapshot of your bill in large, easy-to-read type. Although a more detailed breakdown of your charges is available on the following pages, the account summary provides an overview of charges incurred, payments received, and your total amount due. It’s important to note that at the annual anniversary of the start of participation in the NEM program (annual True-Up), customers are responsible for any reconciled NEM charges due.

Your Net Energy Metering (NEM) Account Summary: True-Up
This section provides notification that this is the annual True-Up Statement in which all energy charges, credits, service charges, taxes and fees are reconciled. If you generated more energy than you used over the True-Up period, this section would also include your Net Surplus Compensation.
Summary of NEM True-Up Period Charges

The chart below shows how much net energy you generated or consumed each month throughout the True-Up period and the associated charge or credit. The chart provides a summary of the total NEM charges from the start of your annual True-Up period and a monthly snapshot of your net energy use including time periods if you are on a Time-of-Use rate schedule.

Differences in net usage occur due to rounding. Demand charges are not included in this table.

Explanation of Calculations

This section explains how your year-to-date (YTD) and month-over-month NEM charges are calculated. Since this is your True-Up Statement, you are responsible for any charges due. If you generated more energy than you used over the True-Up period, this section would also include your Net Surplus Compensation.

[Text 40] This is your True-Up statement. You are being billed for your total NEM Charges Before Taxes in addition to any applicable charges and taxes.

[Text 13] Based on your Net Usage (kWh), the True-Up calculations are:

- Total NEM Charges Before Taxes: $14,246.61
- Taxes: $31.20
- Total NEM Charges Due: $14,277.81
