Dear Mr. Lee:

The Department of Toxic Substances (DTSC) has reviewed the Final Removal Action Workplan (RAW) for the former Watsonville-1 Manufactured Gas Plant Site, dated October 27, 2011. The public comment period on the Draft RAW was held from June 27 through July 31, 2011. The two public comments were received during the comment period and were addressed in a Responsiveness Summary, which is included as Appendix D in the Final RAW. No modifications to the RAW were needed in response to the comments that were received. DTSC has determined that the Final RAW satisfactorily addresses all applicable state and federal statutes and regulations. DTSC hereby approves the Final RAW for implementation.

If you have any questions or comments, please contact me at (510) 540-3759 or by email at hchui@dtsc.ca.gov.

Sincerely,

Henry Chui, P.E.
