

## **C'est Si Bon Bakery Financing (30-sec) Video**

### **Video Script**

The rack oven that we installed recently is a major step towards upgrading our whole business and it happened with the help of PG&E. They have services like on-bill financing and they have all these rebates for upgrading. The on-bill financing loan was \$9,800. The process was easier than I thought, and in that regard, was a pleasant surprise. We would be crazy not to recommend this process to others because these are resources that are available to you and why not use it?
