

NANTeL has created study guides for most of the lessons that can be taken on NANTeL. You must log into NANTeL (<http://nantel.org>) to get to the Study Guides.

Once logged in, roll your mouse over "Help" and then click on "NANTeL Student Support Page"

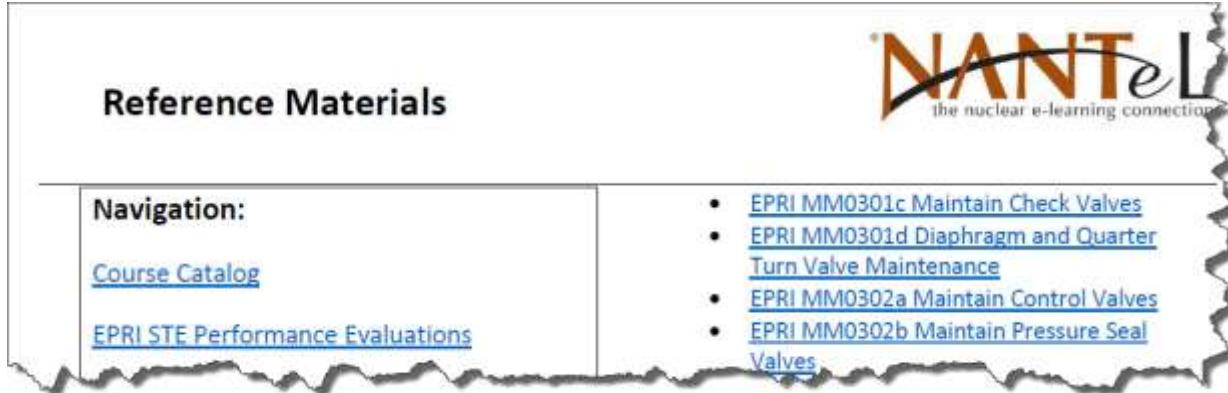

On the NANTeL Student Support Page under "Helpful Links" Click on "Reference Materials"

The Reference Materials link opens an *Adobe Acrobat*® PDF file, which has links to each course's guide.

The direct link to this PDF document is:

[https://contentprd.nantel.org/production/ReferenceMaterials/ReferenceMaterials\\_V1.pdf](https://contentprd.nantel.org/production/ReferenceMaterials/ReferenceMaterials_V1.pdf)

In the Reference Materials PDF document, the Generic "Lesson Plans" for "Access" courses begin on the bottom of Page 3 and continue on Page 4. Merely find the course title and click on the link to open its Lesson Guide. Once open it can be printed or saved to a local computer drive/Flash drive etc..
