Dear Ms Smith:

Advice 2465-E-C
(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Submits Revised Tariffs as Ordered in Decision 04-02-062. Supplemental Filing to Further Revise Schedule DA CRS and Energy Statement

Pacific Gas and Electric Company (PG&E) hereby submits for filing revised electric tariff sheets complying with the Commission’s order in Decision (D.) 04-02-062. The affected tariff sheets are listed on the enclosed Attachment 1.

Purpose

In this supplemental filing, PG&E revises Schedule DA CRS – Direct Access Cost Responsibility Surcharge to add exemptions from the Competition Transition Charges (CTC) and Regulatory Asset to the exemptions in Special Conditions 1 and 2.

On March 1, 2004, PG&E filed Advice 2465-E-A in compliance with Decision (D.) 04-02-062. In D.04-02-062, the Commission acted on PG&E’s January 20, 2004, “Motion for Approval of Rate Design Settlement” (RDSA) filed in 1.02-04-026 and Advice 2465-E, filed January 26, 2004, which were filed in accordance with the Modified Settlement Agreement (MSA) entered into by the Commission, PG&E, and PG&E Corporation pursuant to D.03-12-035.

In Advice 2465-E-A, PG&E presented new rates to implement a bundled service rate reduction of $799 million as directed by D.04-02-062. In addition, PG&E included revised rate schedules, new preliminary statements and bill formats as required to implement the Commission’s order.

In preparing rates pursuant to PG&E’s Phase 1 GRC decision (D.04-05-055) it was discovered that Schedule DA CRS, as filed in Advice 2465-E-A, did not contain language that provided a temporary exemption to CARE, medical baseline, and continuous Direct Access (DA) customers from paying the Ongoing CTC charges and Regulatory Asset. Despite this oversight, PG&E has not been charging these DA customers for the exempted costs. As noticed in Advice 2516-
E, filed June 7, 2004, PG&E intends to charge these DA customers for these components beginning on August 1, 2004. The modification to DA CRS being made in this supplemental filing, however, simply codifies that CARE, medical baseline, and continuous DA customers are temporarily exempt from these charges.

In this supplemental filing, we are also revising the definition on the back of the bill proposed in Advice 2465-E-A. PG&E’s original filing deleted language that specified that the Trust Transfer Amount is the property of a public trust and does not belong to PG&E, and that PG&E is only billing for this amount on behalf of the public trust. PG&E has added that language back to the definition as this language is required as part of the Rate Reduction Bond financing.

Protests

Anyone wishing to protest this filing may do so by sending a letter by July 18, 2004, which is 20 days from the date of this filing. The protest must state the proof upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. Protests should be mailed to:

APPLICABILITY: This schedule and the applicable components of the Direct Access (DA) Cost Responsibility Surcharge (CRS) apply to all customers who take DA service, unless otherwise set forth in the Special Conditions, below.

TERRITORY: Schedule DA CRS applies everywhere PG&E provides electric service as shown in Preliminary Statement, Part A.

RATES: The DA CRS consists of the Regulatory Asset, Ongoing Competition Transition Charges, Department of Water Resources (DWR) Bond Charge and the DWR Power Charges, as set forth in each rate schedule.

SPECIAL CONDITIONS:

1. California Alternative Rates for Energy (CARE) and medical baseline customers that take DA service are exempt from paying the DWR Bond Charge and DWR Power Charge portion of the DA CRS. Pursuant to D.04-02-062, these customers are also temporarily exempt from paying the Ongoing Competition Transition Charges and the Regulatory Asset.

2. Customers that have taken DA service continually since February 1, 2001, are exempt from the DWR Bond Charge and the DWR Power Charge portions of the DA CRS. ELECTRIC INDUSTRY DEFINITIONS

1. Legislated 10% Reduction: All residential and eligible small business customers receive this discount effective January 1, 1996. This rate reduction was ordered by the Legislature to provide some benefits of electric industry restructuring at the earliest possible date.

2. Trust Transfer Amount (TTA): The charge repays principal and interest on the bonds used to refinance a portion of costs related to investments in electric generation facilities and purchased power contracts, in order to provide a 10% bill reduction to residential and small commercial customers in the years 1998 to 2002. The TTA does not belong to PG&E. The TTA has been transferred to a public trust. PG&E is collecting the TTA on behalf of this trust.

3. Energy Surcharges (ES): Revenues from these surcharges are used to fund procurement of electricity. These surcharges are listed in PG&E’s tariff Schedule E-EPS (Energy Procurement Surcharge). Generation Charge includes applicable energy surcharges for customers who purchase electric power from PG&E.

4. Nuclear Decommissioning: The non-bypassable charge that collects the funds required for site restoration when PG&E’s nuclear power plants are removed from service.

5. Public Purpose Programs: The non-bypassable charge that funds state-mandated assistance programs for low-income customers and energy-efficiency programs.

6. Transmission: The charge that recovers the cost of conveying electricity from power plants over high-voltage lines (including charges for Reliability Services which are the costs of generation required for transmission system reliability).

7. DWR Bond Charge: The charge that recovers the cost of bonds issued to finance a portion of the historic cost of power purchased by California Department of Water Resources (DWR) to serve electric customers. DWR bond revenues are collected on behalf of DWR and do not belong to PG&E.

8. Generation Charge: The charge that recovers the cost of the electric commodity itself and the cost of the Regulatory Asset approved by the California Public Utilities Commission (CPUC) to enable PG&E to emerge from bankruptcy. This includes electricity costs incurred by DWR and PG&E to serve customers.

9. DA CRS Other: The charge that includes the Direct Access Cost Responsibility for the DWR Power Charge, Competition Transition and Regulatory Asset Charges.

10. Franchise Fee Surcharges: This surcharge is for franchise fees for electricity purchased from non-utility suppliers as provided in Schedule E-FFS.

Note: Customers that purchase both electricity and transportation service from PG&E (Bundled Service) pay charges 1 through 9; Customers that purchase electricity from non-utility suppliers (Direct Access Service), pay charges 1 through 8, plus 10 and 11.

- Optional rates are available to many customers and may lower your PG&E bills. Call PG&E for details.

DISPUTED BILLS

Should you question this bill, please request an explanation from PG&E. If you thereafter believe you have been billed incorrectly, send the bill and a statement supporting your belief that the bill is not correct to:

California Public Utilities Commission (CPUC)
Consumer Affairs Branch
505 Van Ness Avenue
San Francisco, CA 94102
To avoid having service turned off if the bill has not been paid, enclose a deposit for the amount of the bill made payable to the CPCU. If you are unable to pay the amount in dispute, you must inform the CPCU of your inability to pay. Your service cannot be discontinued for nonpayment of the disputed bill until the CPUC completes its review. The CPUC will review the basis of the billed amount, communicate the results of its review to the parties and make disbursements of any deposit.

The CPUC will not, however, accept deposits when the dispute appears to be over matters that do not directly relate to the accuracy of the bill. Such matters include the quality of a utility’s service, general level of rates, pending rate applications and sources of fuel or power.
