Subject: Relocation of Mesa-Sisquoc 115 kV for Tract 5836 in the City of Santa Maria, County of Santa Barbara

Dear Ms de la Torre:
Advice Letter 2553-E is effective October 25, 2004. A copy of the advice letter is returned herewith for your records.

Sincerely,

[Signature]

Paul Clanon, Director
Energy Division
September 15, 2004

Advice 2553-E
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Relocation of Mesa-Sisquoc 115 Kilovolt for Tract 5836 in the City of Santa Maria, County of Santa Barbara

Pacific Gas and Electric Company (the Company) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

Pacific Gas and Electric Company (PG&E) has been requested by the developer of housing Tract 5836 to replace two poles, relocate three poles, and relocate one anchor guy in the existing Mesa-Sisquoc 115 kilovolt power line within an easement located in the City of Santa Maria, Santa Barbara County. The power line will be relocated into a new easement and will allow improvements to be made to the intersection of Blosser Road and Battles Road, the intersection of Battles Road and a new road within Tract 5836, and Battles Road, all in conjunction with Tract 5836. PG&E will replace the existing seventy-foot tall wood pole with a new wood pole roughly 20 feet taller in a new location approximately 40 feet to the south to avoid improvements at the new intersection of Blosser Road and Battles Road. Another seventy-foot tall wood pole will be replaced with a slightly taller wood pole approximately 5 feet to the south and 15 feet to the east to avoid improvements to the new Battles Road. A seventy-five foot tall wood pole will be replaced with a shorter, roughly sixty-five foot tall wood pole approximately 2 feet south and 40 feet west to avoid improvements to the intersection of new Battles Road and a new road within Tract 5836. Two
seventy-five foot tall wood poles will be replaced in place with two roughly sixty-five foot poles along new Battles Road. In addition, one anchor guy will be replaced to the north to avoid the alignment of new Battles Road. Work will commence in October 2004, or as soon thereafter as possible, and will be completed by December 2004 or as soon thereafter as possible.

This project qualifies as exempt from Permit to Construct filing requirements, pursuant to G.O. 131-D, Section III, Subsections B.1.b, c, and g, which exempt the following:

b) the replacement of existing power line facilities or supporting structures with equivalent facilities or structures

c) the minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures

g) power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.

Additionally, G.O. 131-D requires utilities to employ "no cost" and specified "low cost" measures to reduce public exposure to electric and magnetic fields (EMFs). The following measures are proposed for this project:

- Because there are no EMF mitigation measures available on this project that would meet the CPUC's benchmark of 4% or less of the total project cost, no "no cost" or "low cost" measures will be employed.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

Protests

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by October 5, 2004, at the following address:

Director, Energy Division
California Public Utilities Commission
505 Van Ness Avenue, Fourth Floor
San Francisco, California 94102
Facsimile: (415) 703-2200

In addition, protests and all other correspondence regarding this advice letter should also be sent by letter and transmitted via facsimile to the attention of:
David T. Kraska  
Attorney, Law Department  
Pacific Gas and Electric Company  
P.O. Box 7442  
San Francisco, California 94120  
Facsimile: (415) 973-0516  

Brian K. Cherry  
Director, Regulatory Relations  
Pacific Gas and Electric Company  
P.O. Box 770000, Mail Code B10C  
San Francisco, California 94177  
Facsimile: (415) 973-7226  
E-Mail: RxDd@pge.com  

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of G.O. 131-D exist.

Effective Date

The Company requests that this advice filing become effective on October 25, 2004, which is 40 days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

In accordance with G.O. 96-A, Section III, Paragraph G, the Company is electronically and postal mailing copies of this advice letter to the utilities and interested parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the “Notice Distribution List” included in Attachment I. Address change requests should be directed to Rose De La Torre at (415) 973-4716. Advice letter filings can also be accessed electronically at

NOTICE OF PROPOSED CONSTRUCTION

PROJECT NAME: Relocation of Mesa-Sisquoc 115 Kilovolt Power Line For Tract 5836
ADVICE LETTER NUMBER: 2533-E

Proposed Project: Pacific Gas and Electric Company (PG&E) has been requested by the developer of housing Tract 5836 to replace two poles, relocate three poles, and relocate one anchor guy in the existing Mesa-Sisquoc 115 kilovolt power line within an easement located in the City of Santa Maria, Santa Barbara County. The power line will be relocated into a new easement and will allow improvements to be made to the intersection of Blosser Road and Battles Road, the intersection of Battles Road and a new road within Tract 5836, and Battles Road, all in conjunction with Tract 5836. PG&E will replace the existing seventy-foot tall wood pole with a new wood pole roughly 20 feet taller in a new location approximately 40 feet to the south to avoid improvements at the new intersection of Blosser Road and Battles Road. Another seventy-foot tall wood pole will be replaced with a slightly taller wood pole approximately 5 feet to the south and 15 feet to the east to avoid improvements to the new Battles Road. A seventy-five foot tall wood pole will be replaced with a shorter, roughly sixty-five foot tall wood pole approximately 2 feet south and 40 feet west to avoid improvements to the intersection of new Battles Road and a new road within Tract 5836. Two seventy-five foot tall wood poles will be replaced in place with two roughly sixty-five foot poles along new Battles Road. In addition, one anchor guy will be replaced to the north to avoid the alignment of new Battles Road. Work will commence in October 2004, or as soon thereafter as possible, and will be completed by December 2004 or as soon thereafter as possible.

Electric and Magnetic Fields (EMF): Pacific Gas and Electric Company will employ “no cost” and specified “low cost” measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 93-11-013 and Pacific Gas and Electric Company’s “EMF Design Guidelines of New Electrical Facilities: Transmission, Substation, and Distribution.” The following measure(s) is proposed for this project:

- Because there are no EMF mitigation measures available on this project that would meet the CPUC’s benchmark of 4% or less of the total project cost, no “no cost” or “low cost” measures will be employed.

Exemption from CPUC Authority: CPUC General Order 131-D, Section III, D.1, exempts projects meeting specific conditions from the CPUC’s requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemption(s):

- b) the replacement of existing power line facilities or supporting structures with equivalent facilities or structures
- c) the minor relocation of existing power line facilities up to 2,000 feet in length, or the interseting of additional support structures between existing support structures
- g) power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.

Public Review Process: Persons or groups may protest the proposed construction if they believe that Pacific Gas and Electric Company has incorrectly applied for an exemption or that the conditions set out in Section III B.2 of General Order 131-D exist;

- a. There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and Project Name.
3. A clear description of the reason for the protest.
4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by October 5, 2004, at the following address:

Director, Energy Division
California Public Utilities Commission
505 Van Ness Avenue, Fourth Floor
San Francisco, California 94102

With a copy mailed to:

David Kraska, Law Department
Pacific Gas and Electric Company
P.O. Box 7442
San Francisco, California 94120

Pacific Gas and Electric Company must respond within five business days of receipt and serve copies of its response on each protestant and the Energy Division. Within 30 days after Pacific Gas and Electric Company has submitted its response, the Executive Director of the CPUC will send you a copy of an Executive Resolution granting or denying the request and stating the reasons for the decision.

Assistance in Filing a Protest: For assistance in filing a protest, contact the CPUC Public Advisor in San Francisco at (415) 703-2074 or 1-866-849-8390 (toll-free) or TTY (415) 703-5258 or public.advisor@cpuc.ca.gov.

Additional Project Information: To obtain further information on the proposed project, please call Pacific Gas and Electric Company’s Project Information Line at (415) 873-5530.
