Subject: Staff Disposition of Advice Letter 2885-E-A: Revisions to Heat Storm Electric Bill Credit and Establishment of Fund to Assist with Customer Bills in Compliance with Resolution E-4019

Dear Mr. Cherry:

The Energy Division has determined that Advice Letter (AL) 2885-E-A complies with Resolution E-4019. Pursuant to Ordering Paragraph 2 of that resolution, AL 2885-E-A is effective on September 7, 2006.

Resolution E-4019 approved the bill credit method that PG&E proposed in AL 2885-E. That method specifies that the heat storm bill credit will be determined by multiplying the current “Net Charges” from the customer’s eligible heat storm bill by 15 percent for residential customers and 10 percent for customers taking service on non-residential rate schedules. That same method is described in AL 2885-E-A.

Any changes the heat storm bill credit method approved by Resolution E-4019 would have to be addressed by a separate Commission order in response to a petition to modify or application to rehear Resolution E-4019. The procedures for filing applications for rehearing and petitions for modification are set forth in Rules 5 and 6 appended to Commission decision D.05-01-032, and Article 16 of the Commission’s Rules of Practice and Procedure. These documents are available on the Commission’s website at www.cpuc.ca.gov.

Please contact Don Lafrenz of the Energy Division staff if you have any questions. He can be reached at 415-703-1063, or by email at “dlf@cpuc.ca.gov”.

Sincerely,
Sean Gallagher, Director
Energy Division

Advice 2885-E-A
(Pacific Gas and Electric Company ID U 39E)

Public Utilities Commission of the State of California

Subject: Supplement – Revisions to Heat Storm Electric Bill Credit Electric Refund Plan

In compliance with Resolution E-4019, Pacific Gas and Electric Company (PG&E) hereby submits for filing a supplement to Advice 2885-E, Heat Storm Electric Bill Credit and Establishment of Fund to Assist With Customer Bills.

Purpose

The purpose of this supplement is to modify PG&E’s Heat Storm Bill Credit Electric Refund Plan consistent with Ordering Paragraph 2 of Resolution E-4019 as directed by the California Public Utilities Commission (Commission) on September 7, 2006.

Background

In Advice Letter 2885-E, PG&E requested to implement its Heat Storm Bill Credit Electric Refund Plan to refund to customers the higher revenue collection resulting from increased demand levels during the heat storm. PG&E’s Heat Storm Refund Plan stated the following:

- That customers will have nine months from the initial implementation date of the Heat Storm Refund Plan to contend that the amount of the refund is incorrect.
- PG&E requests Commission approval to use $5 million to provide a fund for the benefit of its residential customers who might otherwise be unable to pay their bills.
- PG&E will file a final report to the Director of the Energy Division on the total amount refunded to eligible customers pursuant to the Heat Storm Refund Plan on or before September 28, 2007.
Revisions to Heat Storm Bill Credit Electric Refund Plan

Resolution E-4019 approved PG&E’s Advice 2885-E with the following modifications:

- PG&E’s plan to adjust refunds upon customer inquiry shall allow a customer to contend that the amount of the refund is incorrect for a period of 3 years after the date of the bill showing the credit is issued.
- PG&E shall increase the fund to assist residential customers with paying their bills from $5 million to $10 million. Unused funds shall roll over for use in 2007 and subsequent years until PG&E files its next general rate case following the 2007 GRC. PG&E shall propose a disposition of any unused funds in that future general rate case application.
- PG&E shall issue a final report on bill credits with the Energy Division on or before March 31, 2010.
- Implementation of bill credits and funding for residential customers requiring assistance to pay bills as approved in Resolution E-4019 shall begin no later than October 15, 2006.

Protest Period

So that PG&E can begin the implementation of its Refund Plan, PG&E proposes a shortened 8 day protest period. Anyone wishing to protest this filing must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The deadline for protests is 8 days from the date of filing or September 21, 2006. Protests should be mailed to:

IMC Branch Chief
Energy Division
California Public Utilities Commission
505 Van Ness Avenue, Room 4002
San Francisco, California 94102
Facsimile: (415) 703-2200

Copies should also be mailed to the attention of the Director, Energy Division, Room 4005 and Jerry Royer, Energy Division, at the address shown above. It is also requested that a copy of the protest be sent via postal mail and facsimile to Pacific Gas and Electric Company on the same date it is mailed or delivered to the Commission at the address shown below.

San Francisco, California 94177  
Facsimile: (415) 973-7226  
Email: PGETariffs@pge.com  

Effective Date  

Per Resolution E-4019, Advice Letter 2885-E-A shall become effective on September 7, 2006, subject to Energy Division determining that it is in compliance with the resolution.  

Notice  

In accordance with General Order 96-A, Section III, Paragraph G, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list and the parties on the service lists shown below. Address changes should be directed to Rose de la Torre at 415-973-4716. Advice letter filings can also be accessed electronically at:

PACIFIC GAS AND ELECTRIC COMPANY

HEAT STORM BILL CREDIT

ELECTRIC REFUND PLAN

1. PURPOSE

From July 16 to July 27, PG&E customers experienced temperatures far in excess of normal. As a result, PG&E experienced increased electrical demand for power, increased sales levels, and higher than forecast revenue. PG&E’s customers are now experiencing high, and in some cases extremely high, bills as a result of their higher use. In order to partially offset the severe increase in customer bills for this period of high use due to the heat storm, PG&E requests Commission approval to provide customers with a bill credit. This refund plan describes the bill credit.

2. INITIAL REFUND DATE

The Heat Storm Bill Credit will be displayed on eligible customers’ energy statements beginning October 1, 2006, or by October 15, 2006, at the latest.

3. TOTAL AMOUNT TO BE REFUNDED

It is estimated that approximately $125 to 150 million will be returned to customers. The actual, total dollar amount refunded, however, may differ and will be stated in PG&E’s final report on the Refund Plan to the CPUC.

4. CUSTOMER ELIGIBILITY

An eligible customer is defined as a bundled service or direct access customer who received an electric bill that covers the heat storm period, July 16 through July 27, and is still taking service with PG&E at the time of the issuance of the bill credit.

5. METHODOLOGY FOR DISTRIBUTING REFUNDS TO ELIGIBLE CUSTOMERS

A one-time bill credit will be made to each eligible customer based on the following methodology:

First, identify each customer’s bill that covers the heat storm period. The heat storm days are defined as July 16 through July 27.

PG&E will apply the heat storm refund adjustment to the current “Net Charges” as displayed on the Electric Account Detail section of the
Advice 2885-E-A

customer’s bill. If a customer’s billing cycle is such that two bills both include portions of a heat storm period, then the higher of the two bills will be considered as the basis for determining the heat storm bill credit.

In those instances where a customer’s bill is longer than the standard billing period (a standard bill is 27 – 33 days), PG&E will prorate the current “Net Charges” to an equivalent 33 day bill.

The Heat Storm Bill Credit will be determined by multiplying the current “Net Charges” from the customer’s eligible heat storm bill by 15 percent for all residential customers and 10 percent for all customers taking service on non-residential rate schedules.

If applicable, the associated utility users’ tax will be refunded at the current effective rate.

Finally, the bill credit will be applied in the form of a one-time credit to the customer’s bill. The bill credit will appear as a separate line item on the energy statement entitled “Heat Storm Bill Credit”.

6. NOTICE TO MASTER-METERED CUSTOMERS WITH SUBMETERED TENANTS

PG&E will inform master-metered customers of potential bill credits and remind them of their obligation to pass along any refunds to their tenants in accordance with Section 739.5 (b) of the Public Utilities Code. PG&E will include a sample calculation of the credit to a submetered tenant.

7. ADJUSTMENT OF REFUND UPON CUSTOMER INQUIRY

If within three years after the date the bill showing the credit is issued a current or former customer contends that the amount refunded is incorrect, PG&E will investigate the matter and make an appropriate adjustment.

8. REPORT ON REFUND PLAN

A final report of the total amount refunded to eligible customers pursuant to the Refund Plan will be furnished to the Director of the Energy Division on or before March 31, 2010. A preliminary report of the amount refunded through October 31, 2006, will be provided to the Director of the Energy Division by December 1, 2006. These reports will include adjustments made pursuant to Section 7 of this Refund Plan.

9. CUSTOMER NOTIFICATION

Each energy statement reflecting the refund credit will include a bill message stating the reason for the refund.
