Advice 2778-G/2929-E
(Pacific Gas and Electric Company ID U39 M)

Subject: Request for Authorization to Terminate Reporting Requirements as Originally Mandated by Decision 03-02-041.

Public Utilities Commission of the State of California

Purpose:

On February 27, 2003, the Commission issued Decision (D).03-02-041, closing the 1998 Outage investigation and adopting certain reporting requirements. Pursuant to this decision Pacific Gas and Electric (PG&E) was ordered to submit to the California Public Utilities Commission (Commission) and to the City and County of San Francisco (CCSF) quarterly reports addressing the San Francisco Recovery Plan; the San Francisco Remedial Action Scheme; Outage Reports; Root Cause Reports; Maintenance Reports; Audit reports.

PG&E was directed to file these reports for three years from the effective date of the decision, which was February 27, 2003. Ordering Paragraph 3 provides that, after the initial three-year period, PG&E may file an advice letter requesting authorization to discontinue the reporting requirement mandated by D.03-02-041.

Last July, PG&E met with representatives of the Commission's Consumer Protection and Safety Division (CPSD) and discussed whether CPSD still had a need for the reports. After reviewing the other data that is available to the Commission, including the Standard 1465 event reports, Standard 2010 Outage Review Team documentation, SAIDI and SAIFI data, individual outage data, MR&RO data, and substation and control center audit documentation, the participants in the meeting concluded that they have no need for any of the data except for the detailed outage data that PG&E provides on a CD. PG&E is willing to provide this data to CPSD separately and requests that the reporting requirements of D.03-02-041 be discontinued.
PG&E has also discussed this with CCSF and has agreed that, within ten business days of receiving a request from CCSF, PG&E will provide the information subject to the same conditions that it is currently being provided (e.g., treatment of confidential information).
