Advice 2930-E
(Pacific Gas and Electric Company ID U39 E)

Subject: Replacement of certain street light poles within the Town of Danville under street light tariffs in effect prior to March 1, 2006

Public Utilities Commission of the State of California

Pacific Gas and Electric Company (PG&E) hereby submits for approval, in accordance with General Order (G.O.) 96-A, Section X.B, the mutual understanding and agreement between PG&E and the Town of Danville (Town) concerning the treatment of the Town's request to replace failing center bore wood poles with new facilities under the provisions of the Street Light Rate Schedule LS-1 then in effect at the time of the Town's request.

Background

In 2005, the California Public Utilities Commission (Commission) issued approval of Advice 2637-E, effective April 18, 2005, which removed references to provision of "wood" poles in Schedule LS-1 class F. This provided PG&E increased flexibility in meeting customer needs when replacing failing center bore wood poles.

Prior to March 1, 2006, the Town had requested that PG&E provide replacement options for failing center bore wood pole street lights. At the time the Town made this request, PG&E did not have a range of acceptable standard options available for replacing these poles. Since then, PG&E has updated its product catalogue to include current acceptable streetlight fixture and pole styles. The Town has now selected a product from PG&E's current offerings.

Proposal

Because the Town had expressed its intent for PG&E to replace these poles well in advance of the LS-1 schedule change on March 1, 2006, PG&E requests

approval to treat the request of the Town under the terms of the LS-1 schedule then in effect prior to March 1, 2006.

This filing will not increase any rate of charge, cause the withdrawal of service, or conflict with any rate schedule or rule.
