Advice 3186-E (Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

<u>Subject:</u> 2008 Department of Water Resources (DWR) Revenue Requirement Determination

Pacific Gas and Electric Company (PG&E) hereby submits this advice letter in compliance with Decision (D.) 07-12-030, Opinion Allocating the Revised 2008 Revenue Requirement Determination of the California Department of Water Resources. Revised electric tariffs were filed on December 27 as part of PG&E's Annual Electric True-up (AET) supplemental advice filing¹.

Purpose

The purpose of this filing is to comply with the requirements of D.07-12-030. Ordering Paragraph (OP) 4 of D.07-12-030 provides:

"Within eight days of today's date, PG&E, SDG&E, and SCE shall file Tier 1 advice letters, as provided for in General Order 96-B, with revised tariffs that reflect the adopted Bond Charge and Power Charge. These new tariffs shall be effective beginning January 1, 2008.

Electric Rate Consolidation

In this advice letter, PG&E implements the DWR revenue requirement changes described below. These changes were also incorporated in PG&E's supplemental AET filing, filed on December 27, 2007, with rate changes to be effective on January 1, 2008.

¹ This will be a supplement to Advice Letter 3115-E, which was filed on August 31, 2007.

2008 DWR Bond Charge

The 2008 DWR revenue requirement proceeding establishes both the 2008 DWR bond charge rate and the 2008 DWR power charge revenue requirement. In this advice letter, PG&E proposes to implement both changes through the consolidated rate changes made in the AET. Pursuant to D.07-12-030 (OP 2), the DWR bond charge for 2008 is \$0.00477 per kilowatt-hour (kWh). The DWR bond charge is paid by eligible bundled and non-bundled customers.

2008 DWR Power Charge and Remittance Rate

The 2008 DWR power charge revenue requirement determined by the 2008 DWR revenue requirement decision (D.07-12-030) is \$1,420 million². As detailed in PG&E's AET supplement, the December 31, 2007 Power Charge Collection Balancing Account (PCCBA) balance is forecast to be an undercollection of \$154 million. As provided for in the CPUC's AET Resolution E-4121, PG&E, in its AET supplement, will combine the 2008 power charge revenue requirement with the amortization of the forecast PCCBA balance to develop the total power charge related revenue requirement to be implemented in retail rates (\$1,574 million). The PCCBA revenue component is collected in generation rates paid by bundled customers.

The corresponding DWR remittance rate for PG&E is provided in Appendix A of D.07-12-030 and is \$0.06932 per kWh.

Non-bundled Charges

PG&E expects that the power charge component of PG&E's non-bundled cost responsibility surcharge revenues for 2008 will be zero. PG&E's entire 2008 DWR power charge revenue requirement will be collected from bundled customers.

Tariff Changes

PG&E filed a supplement to its AET Advice Filing on December 27, 2007, with tariffs that include the final DWR related rate values based on D.07-12-030. The AET supplement also contains revised rates for the PCCBA in electric Preliminary Statement I – Rate Schedule Summary.

² See attached Appendix A which contains applicable excerpts from Appendix A of D.07-12-030.

Protests

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than **January 17, 2008**, which is 20 days from the date of this filing. Protests should be mailed to:
