Advice 3469-E-A
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Supplemental Filing for the Contract for Procurement of Renewable Energy Resources Resulting from PG&E’s Power Purchase Agreement with AV Solar Ranch 1, LLC (A Subsidiary of Nextlight)

Pacific Gas and Electric Company (“PG&E”) hereby submits to the California Public Utilities Commission (“Commission” or “CPUC”) a supplemental filing for Advice 3469-E, dated June 4, 2009. Advice 3469-E submitted a Power Purchase Agreement (“PPA”) between PG&E and AV Solar Ranch 1, LLC (“Antelope Valley”) for CPUC review and approval. The PPA provides for PG&E’s purchase of generation from a 230 megawatt (“MW”) solar photovoltaic (“PV”) facility (“the Project”) to be constructed in California’s Antelope Valley, in the western tip of the Mojave Desert. Annual deliveries for the PPA’s 25-year term are expected to average 592 gigawatt hours (“GWh”). The advice letter is currently pending approval by the Commission.

The purpose of this supplement is to obtain CPUC approval of changes that result from updates to certain information discussed in the PPA. As addressed in Confidential Appendix A, these changes do not impact the base contract price that PG&E will pay for power generated under the agreement. These changes do, however, impact potential adjustments made to the contract price under the terms of the PPA.

1 Supplements to Advice Letters are authorized by General Order 96-B, section 7.5.1. Due to the limited scope of PG&E’s supplemental information, this filing should not delay the effective date of the advice letter.
Effective Date

PG&E requests that this supplemental filing become effective concurrent with Advice Letter 3469-E, which is currently pending Commission Approval.

Request for Confidential Treatment

In support of this supplemental filing, PG&E has provided the following confidential information, including PPA terms and other information that more specifically describes the rights and obligations of the parties. This information is being submitted in the manner directed by D.08-04-023 and the August 22, 2006 Administrative Law Judge’s Ruling Clarifying Interim Procedures for Complying with D.06-06-066 to demonstrate the confidentiality of the material and to invoke the protection of confidential utility information provided under either the terms of the IOU Matrix, Appendix 1 of D.06-06-066 and Appendix C of D.08-04-023, or General Order 66-C. A separate Declaration Seeking Confidential Treatment is being filed concurrently with this supplemental filing.

Confidential Attachments:

   Appendix A – Explanation of Changes to Contract Conditions

   Appendix B – Independent Evaluator’s Update

Request for Commission Approval

The continued effectiveness of the PG&E-Antelope Valley PPA is conditioned on the CPUC’s approval of the price adjustments discussed in Confidential Appendix A of this filing. Therefore, PG&E requests that any resolution that approves AL 3469-E also include the confidential findings discussed in Appendix A of this report.

Protests

PG&E asks that the protest and comment period for the Antelope Valley PPA not be reopened since this supplement simply updates the Commission about findings relevant to specific PPA terms.

Notice

In accordance with General Order 96-A, Section III, Paragraph G, a copy of this advice letter excluding the confidential appendices is being sent electronically and via U.S. mail to parties shown on the attached list and the service list for R.08-08-009, R.06-02-012,

DECLARATION OF SANDRA J. BURNS
SEEKING CONFIDENTIAL TREATMENT
FOR CERTAIN DATA AND INFORMATION CONTAINED IN SUPPLEMENTAL
FILING 3469-E-A
(PACIFIC GAS AND ELECTRIC COMPANY - U 39 E)

I, Sandra J. Burns declare:

1. I am presently employed by Pacific Gas and Electric Company ("PG&E") and have been an employee since 1985. I am a principal in the Structured Transactions Group in the Energy Procurement department within Pacific Gas and Electric Company (PG&E). I am responsible for managing PG&E’s Renewables Portfolio Standard solicitation and negotiating power purchase agreements with counterparties in the business of producing electric energy. In carrying out these responsibilities, I have acquired knowledge of such sellers in general and, based on my experience in dealing with facility owners and operators, I am familiar with the types of data and information about their operations that such owners and operators consider confidential and proprietary.

2. Based on my knowledge and experience, and in accordance with Decision ("D.") 08-04-023 and the August 22, 2006 the “Administrative Law Judge’s Ruling Clarifying Interim Procedures for Complying with Decision 06-06-066,” I make this declaration seeking confidential treatment of Appendices A and B to Supplemental Advice Filing 3469-E-A submitted on December 4, 2009. By this Supplemental Filing, PG&E is updating information contained in Advice Letter 3469-E, which seeks this Commission’s approval of a power purchase agreement (PPA) that PG&E has executed with AV Solar Ranch 1, LLC. Confidential Appendix A is an explanation of how certain contract terms are affected by new information. Confidential Appendix B is the Independent Evaluator’s report concerning the terms of the contract in view of the new information.
3. Attached to this declaration is a matrix that indicates that the material PG&E is seeking to protect contains the particular type of information listed in Appendix 1 of D. 06-06-066 and Appendix C of D. 08-04-023 ("the IOU Matrix"), or constitutes information that should be protected under General Order 66-C. The matrix also specifies the category or categories in the IOU Matrix to which the information corresponds (where applicable), and why confidential protection is justified. Finally, the matrix specifies that: (1) that PG&E is complying with the limitations specified in the IOU Matrix for that type of data or information (where applicable); (2) that the information is not already public; and (3) that the data cannot be aggregated, redacted, summarized or otherwise protected in a way that allows partial disclosure.

4. I incorporate into this declaration all of the information in the attached matrix that is pertinent to this filing.

I declare under penalty of perjury, under the laws of the State of California that, to the best of my knowledge, the foregoing is true and correct.

Executed December 4, 2009 at San Francisco, California.

<td>Appendix A – PS&amp;GE's Explanation of Impact of New Information on PPA Contract Terms</td>
<td>This Appendix consists of PS&amp;GE's analysis of how certain new information affects the Contract Price and affects the rights of the parties under the PPA. Contract terms, in particular, the Contract Price, are confidential according to 12.06.06.06. Since PS&amp;GE is currently in negotiations with bidders from the 2005-2009 RPS solicitations, as well as bilateral negotiations, the disclosure of RPS contract terms would confer a bargaining advantage on these potential sellers and hinder the utility's ability to obtain the best terms for its ratepayers. PS&amp;GE's analysis of contract terms should remain confidential for the maximum period, that is, three years from the time of this filing, to avoid the impairment of PS&amp;GE's ongoing negotiations. In addition, General Order 96-C protects from public disclosure &quot;information obtained in confidence from other than a business regulated by this Commission where the disclosure would be against the public interest.&quot; (Paragraph 2.8). The terms of the PPA are confidential in accordance with the Confidentiality Agreement executed by PS&amp;GE and the seller. The public interest would be harmed if the terms of the PPA were publicly revealed because the seller's inability to protect confidential business information would put it at a competitive disadvantage and would create a disincentive for any counterparty to do business with PS&amp;GE or other regulated utilities.</td>
