Advice 3494-E
(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Elimination of the Energy Recovery Bond Departing Load Memorandum Account

Pacific Gas and Electric Company (PG&E) hereby submits for filing revisions to its electric tariffs.

Purpose

The purpose of this advice letter is to report on the disposition of the balance in the Energy Recovery Bond Departing Load Memorandum Account (ERBDLMA) and to eliminate ERBDLMA (PG&E Account No. 2540047), Electric Preliminary Statement Part DW, pursuant to Decision (D.) 04-11-015.

Background

The purpose of the ERBDLMA was to track ERB-related billed revenues from certain non-exempt consumers, Split Wheeling Departing Load (DL), Customer Generation DL, Transferred Municipal DL, New Municipal DL, New WAPA DL and the Bay Area Rapid Transit District (BART), while the method for calculating the applicability of the Energy Recovery Bond (ERB) revenues was resolved in other Commission proceedings (e.g., R.02-01-011). The ERBs were authorized by the California Public Utilities Commission (Commission) in D.04-11-015 to provide the funds necessary to refinance PG&E’s Modified Settlement Agreement Regulatory Asset in accordance with D.03-12-035 and Senate Bill 772. The ERBs are recovered as part of the Energy Cost Recovery Amount (ECRA) cost component on consumers’ bills, which is a combination of the Energy Recovery Bond Balancing Account and the Dedicated Rate Component associated with each of the two tranches of bonds.

As detailed below, the Commission has resolved the applicability of the ERB charges for each of the above types of Departing Load consumers and has approved corresponding PG&E tariffs:

---

1 D.04-11-015, page 44
1. Split Wheeling Departing Load (SDL) consumers were determined to be subject to ECRA charges pursuant to D.03-09-052 and D.03-12-035. Accordingly, PG&E filed Advice 2579-E-A, containing E-SDL, to affect this charge. Advice 2579-E/E-A was approved by the Commission on May 25, 2006.

2. Pursuant to D.03-04-030, the only Customer Generation Departing Load (CGDL) consumers who are obligated to pay ECRA are those which have diesel generators without the best available control technology. In addition, Direct Access consumers who switch to Customer Generation also pay ECRA charges for past, but not ongoing, obligations. Accordingly, PG&E filed Advice 2375-E/E-A/E-B, containing rate schedule E-DCG, to affect this charge. Advice 2375-E–B was approved by the Commission on July 28, 2005.

3. Transferred Municipal Departing Load (TMDL) consumers (except those receiving service from the Turlock Irrigation District) were determined to be subject to ECRA charges pursuant to Pursuant to D.03-07-028, D.04-02-062 and Resolution E-3999. Accordingly, PG&E filed Advice 2433-E-D, containing rate schedule E-TMDL to affect this charge. Advice 2433-E-D was approved by the Commission on February 13, 2007.

4. Resolution E-4064 exempted most New Municipal Departing Load (NMDL) consumers from ECRA. Rate schedule E-NMDL, reflecting these exemptions, was filed in Advice 2483-E-C and was approved by the Commission on February 7, 2008.

5. New WAPA Departing Load consumers were determined to be subject to ECRA pursuant to D.06-05-018 and D.07-05-005. Accordingly, PG&E filed Advice 2835-E/E-A/E-B, containing rate schedule E-NWDL to affect this charge. Advice 2835-E-B was approved by the Commission on March 17, 2008.

In D.05-07-041, the Commission determined that BART is exempt from ERB charges. PG&E has refunded all ERB-related charges collected from BART.

Now that the Commission has completed the ERB approval process for the above consumer classes, and associated tariffs have been issued and approved, the need for the ERBDLMA has been obviated. Accordingly, PG&E has moved the associated ERBDLMA balances to the appropriate accounts and requests that the Commission approve the elimination of preliminary statement ERBDLMA.
