Subject: Revision to Electric Schedule E-9 – Experimental Residential Time-of-Use Service for Low Emission Vehicle Customers

Dear Ms. Yura:

Advice Letter 3751-E is effective December 2, 2010.

Sincerely,

Julie A. Fitch, Director  
Energy Division

Advice 3751-E
(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject:  Revision to Electric Schedule E-9 - Experimental Residential Time-of-Use Service for Low Emission Vehicle Customers

Purpose

Pacific Gas and Electric Company (PG&E) hereby requests modification of Electric Schedule E-9 to remove the requirement that residential customers with Battery Electric Vehicles (BEVs) or Plug-in Hybrid Electric Vehicles (PHEVs) receive service under Schedule E-9.

Background

Electric Schedule E-9 currently requires residential customers that charge a BEV or PHEV at their premises to receive service under Schedule E-9 and under no other rate schedule. The mandatory nature of Schedule E-9 is not consistent with the goal of customer choice or the goal of convenient, easily understood and enforced rate design.

Since PG&E does not intend for Schedule E-9 to be the long term electric vehicle rate solution, PG&E sees little to be gained by forcing customers onto this rate schedule. In addition, later this year, a new generation of electric vehicles will begin to be marketed to customers in PG&E’s service area, and residential customers buying those vehicles will expect to be provided a choice among different rate schedules, including the option of remaining on their current whole house E-1 rate or switching to E-9. PG&E also expects in the near future to file new rate schedules available for electric vehicle customers, based on information and insights obtained from customers and in the Commission’s Rulemaking 09-08-009 on alternative vehicles. Accordingly, PG&E makes this request to make Schedule E-9 optional for customers.
Protests

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than November 22, 2010, which is 20 days from the date of this filing. Protests should be mailed to:

CPUC Energy Division
Tariff Files, Room 4005
DMS Branch
505 Van Ness Avenue
San Francisco, California 94102

Facsimile: (415) 703-2200
E-mail: inj@cpuc.ca.gov and mas@cpuc.ca.gov

Copies also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest also should be sent via U.S. Mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

APPLICABILITY: This optional experimental schedule applies to electric service to customers for whom Schedule E-1 applies and who have a currently registered Motor Vehicle, as defined by the California Motor Vehicle Code, which is: 1) a battery electric vehicle (BEV) or plug-in hybrid electric vehicle (PHEV) recharged via a recharging outlet at the customer’s premises; or, 2) a natural gas vehicle (NGV) refueled via a home refueling appliance (HRA) at the customer’s premises. This schedule is not available to customers with a conventional, charge sustaining (battery recharged solely from the vehicle’s on-board generator) hybrid electric vehicle (HEV). Low speed electric vehicles and electrically powered motorcycles, as defined by the California Motor Vehicle Code, are not eligible for this rate option. This schedule is optional for customers where a NGV has been purchased or leased, and a home refueling appliance (HRA) has been installed at the customer’s premises for the sole purpose of compressing natural gas for use as a motor-vehicle fuel and gas service is provided by PG&E under optional residential gas Schedule G1-NGV – Residential Natural Gas Service For Compression On Customers’ Premises or Schedule GL1-NGV – Residential CARE Program Natural Gas Service For Compression on Customers’ Premises. Service under this schedule is provided at the sole option of PG&E and based upon the availability of metering equipment and customer infrastructure improvements necessary for charging or fueling.

Depending on the manner in which customers will fuel their vehicle, one of the following rates will apply:

Rate A: Applies to all applicable customers unless they qualify for and choose Rate B.

Rate B: Applies to all applicable customers with a separately metered BEV or PHEV, recharging outlet or NGV home refueling appliance.

Ongoing daily Time-of-Use (TOU) meter charges applicable to customers taking service under this rate schedule will no longer be applied if the customer has a SmartMeter™ installed.

TERRITORY: This rate schedule applies everywhere PG&E provides electric service.
