Dear Ms. Yura:

Advice Letter 3177-G/3779-E is effective January 14, 2011.

Energy Division
December 15, 2010

Advice 3177-G/3779-E
(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

Subject: Revision to Gas and Electric Energy Efficiency Balancing Accounts to Record On-Bill Financing Default Expense

Purpose

Pacific Gas and Electric Company (PG&E) hereby submits this advice letter to revise Gas Preliminary Statement Part Y, Gas Public Purpose Energy Efficiency Balancing Account (PPPEEBA); Electric Preliminary Statement Part P, Electric Public Purpose Energy Efficiency Balancing Account (PPPEEBA); and Electric Preliminary Statement Part DI, Procurement Energy Efficiency Balancing Account (PEEBA) (together referred to as the expense balancing accounts) to correctly record any default on loans made under the On-Bill Financing Program adopted in Decision (D.) 09-09-047 and Advice 3118-G-A/3667-E-A approved on June 30, 2010.

Background

D.09-09-047 adopted the OBF Program, including the provision that the value of the loan pool would be removed from energy efficiency (EE) portfolio cost effectiveness calculations and that the loan defaults would be considered a program expense.

PG&E filed tariffs to implement the OBF Program in Advice 3118-G-A/3667-E-A, approved on June 30, 2010, that included a provision to transfer the authorized OBF loan pool amount from the expense balancing accounts to the Gas and Electric On-Bill Financing Balancing Accounts (OBFBAs). This provision allows PG&E to track the OBF loan activity separate from EE program expenses.

In the case of a loan default, the approved OBFBAs and expense balancing accounts have offsetting entries to record a reduction to the available loan pool amount in the OBFBAs equal to the amount of the default and record the loan default expense in the expense balancing accounts. However, an additional entry is needed to transfer funds back to the expense balancing accounts in an amount equal to the default expense. Without the proposed additional entries, the
approved tariffs inadvertently reduce the amount of EE program funding by the loan default amount rather than reducing the amount of the available OBF loan pool.

**Requested Tariff Revisions**

PG&E requests a revision to the Gas and Electric PPPEEBAs and PEEBA to record a credit entry in each of the expense balancing accounts equal to the loan default amount recorded in the accounts. These entries will in effect reverse the one-time loan pool transfers previously recorded in the expense balancing accounts by the amount of the loan default. Therefore, the available OBF loan pool will be reduced by the OBF loan default and the available EE program budget will not be impacted. The OBFBAs are unchanged.

Specifically, PG&E requests approval to add the following new entry 6e to the PPPEEBA-gas, PPPEEBA- electric, and PEEBA:

- A credit entry to partially reverse the OBF loan pool transfer made in entry 6c, above, equal to the write off for any OBF loan default recorded in entry 6d, above.

**Effective Date**

PG&E requests that this advice filing become effective on regular notice, January 14, 2011, which is 30 calendar days after the date of filing.

DI. PROCUREMENT ENERGY EFFICIENCY BALANCING ACCOUNT (PEEBA)

1. PURPOSE:

   Decision 03-12-062 established the one-way Procurement Energy Efficiency Balancing Account (PEEBA) to track PG&E’s procurement energy efficiency (EE) costs and revenues associated with authorized programs. The PEEBA tracks the procurement portion of PG&E’s EE program expenditures against the procurement portion of authorized EE program funding.

   The PEEBA balance shall apply to all customer classes, except for any classes that may be specifically excluded by the CPUC.

3. REVISION DATE:

   The disposition of the balance in this account shall be through the Annual Electric True-up advice letter process or as otherwise authorized by the Commission.

4. RATES:

   The PEEBA does not have a separate rate element.
