Advice 4262-E
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Old Kearney- New Kearney Rearrangement in the County of Fresno

Pacific Gas and Electric Company ("PG&E" or "the Company") hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

To ensure continued safe and reliable electric service to the greater Fresno area, PG&E plans to relocate two 70 kilovolt (kV) power lines that currently tap into Old Kearney Substation, located at the northeast corner of Cornelia Avenue and Jensen Avenue in rural Fresno County. Both lines would be relocated to tap into New Kearney Substation, located at the southwest corner of the same intersection. On the Kearney-Biola 70 kV Power Line, the approximately 740-foot relocated segment (minor relocation) will begin at an existing wood pole located approximately 450 feet north of Jensen Avenue on the east side of Cornelia Avenue. Approximately 376 feet of the existing power line will be removed from this pole into Old Kearney Substation. The relocated wood pole line will continue down the east side of Cornelia Avenue (existing franchise), onto an existing lattice steel tower in Old Kearney Substation, and across the intersection to a new approximately 72-foot-tall light-duty-steel pole on the New Kearney Substation property. The second power line to be relocated, the Kearney-Bowles 70 kV Power Line, currently extends southeasterly on wood poles from Old Kearney Substation. PG&E will remove approximately 500 feet of the existing line and relocate it onto three light-duty steel poles, ranging in height

from approximately 58 feet to 90 feet tall, which will carry the line approximately 650 feet west (minor relocation) in an existing PG&E easement (existing easement) into New Kearney Substation. The 90-foot-tall pole is needed to cross over another existing 70 kV power line to enter the substation. Construction is scheduled to begin September of 2014, or as soon as new substation equipment has been installed, with completion in May of 2015 or as soon as possible after construction begins.

CPUC General Order 131-D, Section III, Subsection B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. The Company believes this project qualifies for the following exemptions:

- c. the minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures.
- g. power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

Protests

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than August 14, 2013, which is 20 days after the date of this filing. Protests should be mailed to:

CPUC Energy Division
ED Tariff Unit
505 Van Ness Avenue, 4th Floor
San Francisco, California 94102

Facsimile: (415) 703-2200
E-mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address show above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

David T. Kraska
Attorney, Law Department
Pacific Gas and Electric Company
P.O. Box 7442
San Francisco, California 94120

Facsimile: (415) 973-0516

Brian K. Cherry
Vice President, Regulatory Relations
Pacific Gas and Electric Company
P.O. Box 770000, Mail Code B10C
San Francisco, California 94177

Facsimile: (415) 973-7226
E-Mail: PGETariffs@pge.com

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of G.O. 131-D exist.

Effective Date

The Company requests that this advice filing become effective on August 24, 2013, which is 30 days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

A copy of this advice letter is being sent electronically and via U.S. Mail to parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. All electronic approvals should be sent to e-mail PGETariffs@pge.com. Advice letter filings can also be accessed electronically at <http://www.pge.com/tariffs/>.

Advice Letter (AL) #: **4262-E**

Tier: N/A

Subject of AL: **Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Old Kearney- New Kearney Rearrangement in the County of Fresno**

Keywords (choose from CPUC listing): Power Lines

AL filing type: Monthly Quarterly Annual One-Time Other _____

If AL filed in compliance with a Commission order, indicate relevant Decision/Resolution #: Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL: N/A

Is AL requesting confidential treatment? If so, what information is the utility seeking confidential treatment for: N/A

Confidential information will be made available to those who have executed a nondisclosure agreement: N/A

Name(s) and contact information of the person(s) who will provide the nondisclosure agreement and access to the confidential information: N/A

Resolution Required? Yes No

Requested effective date: **August 24, 2013**

No. of tariff sheets: N/A

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed: N/A

Protests, dispositions, and all other correspondence regarding this AL are due no later than 20 days after the date of this filing, unless otherwise authorized by the Commission, and shall be sent to:

NOTICE OF PROPOSED CONSTRUCTION

PROJECT NAME: OLD KEARNEY - NEW KEARNEY REARRANGMENT – (Fresno County)
ADVICE LETTER NUMBER: 4262-E

Proposed Project: To ensure continued safe and reliable electric service to the greater Fresno area, Pacific Gas and Electric Company (PG&E) plans to relocate two 70 kilovolt (kV) power lines that currently tap into Old Kearney Substation, located at the northeast corner of Cornelia Avenue and Jensen Avenue in rural Fresno County. Both lines would be relocated to tap into New Kearney Substation, located at the southwest corner of the same intersection. On the Kearney-Biola 70 kV Power Line, the approximately 740-foot relocated segment (minor relocation) will begin at an existing wood pole located approximately 450 feet north of Jensen Avenue on the east side of Cornelia Avenue. Approximately 376 feet of the existing power line will be removed from this pole into Old Kearney Substation. The relocated wood pole line will continue down the east side of Cornelia Avenue (existing franchise), onto an existing lattice steel tower in Old Kearney Substation, and across the intersection to a new approximately 72-foot-tall light-duty-steel pole on the New Kearney Substation property. The second power line to be relocated, the Kearney-Bowles 70 kV Power Line, currently extends southeasterly on wood poles from Old Kearney Substation. PG&E will remove approximately 500 feet of the existing line and relocate it onto three light-duty steel poles, ranging in height from approximately 58 feet to 90 feet tall, which will carry the line approximately 650 feet west (minor relocation) in an existing PG&E easement (existing easement) into New Kearney Substation. The 90-foot-tall pole is needed to cross over another existing 70 kV power line to enter the substation. Construction is scheduled to begin September of 2014, or as soon as new substation equipment has been installed, with completion in May of 2015 or as soon as possible after construction begins.

Exemption from CPUC Permit Requirement: CPUC General Order 131-D, Section III.B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemption:

- c. the minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures.
- g. power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.

Public Review Process: Persons or groups may protest the proposed construction if they believe that Pacific Gas and Electric Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- a. There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

- 1. Your name, mailing address and daytime telephone number.
- 2. Reference to the CPUC Advice Letter Number and Project Name.
- 3. A clear description of the reason for the protest.
- 4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by August 14, 2013 at the following address:

Director, Energy Division
 California Public Utilities Commission
 505 Van Ness Avenue, Fourth Floor
 San Francisco, California 94102

With a copy mailed to:
 David Kraska, Law Department
 Pacific Gas and Electric Company
 P.O. Box 7442
 San Francisco, California 94120

Pacific Gas and Electric Company must respond within five business days of receipt and serve copies of its response on each protestant and the Energy Division. Within 30 days after Pacific Gas and Electric Company has submitted its response, the Executive Director of the CPUC will send you a copy of an Executive Resolution granting or denying the request and stating the reasons for the decision.

Assistance in Filing a Protest: For assistance in filing a protest, contact the CPUC Public Advisor in San Francisco at (415) 703-2074 or 1-866-849-8390 (toll-free) or TTY (415) 703-5258 or public.advisor@cpuc.ca.gov.

Additional Project Information: To obtain further information on the proposed project, please call Pacific Gas and Electric Company's Project Information Line at (415) 973-5530.
