Advice 4382-E
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Paramount Farms Firebaugh Substation Interconnection to the Gill Ranch 115 kV Tap, County of Madera

Pacific Gas and Electric Company ("PG&E" or "the Company") hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

Paramount Farms International has asked Pacific Gas and Electric Company (PG&E) to connect Paramount Farm's new customer-owned substation to PG&E's system at the Gill Ranch 115 kV Tap, which runs along the west side of Chowchilla Canal Road in Madera County. The new power line will begin at Chowchilla Canal Road, approximately one mile south of Avenue 7, and extend approximately 3,200 feet west along an existing farm road. PG&E will install the power line over an existing distribution line, which will require removing approximately 12 existing wood distribution poles and replacing them with approximately 12 taller power line wood poles to accommodate both the distribution and the transmission wires and switches. The existing distribution poles are approximately 35 to 40 feet tall and the new poles will be approximately 60 to 100 feet tall. Construction is tentatively scheduled to begin in June 2014, or as soon as project plans and approvals are in place. The project is scheduled to be completed in August 2014, or as soon as possible after construction begins.

CPUC General Order 131-D, Section III, Subsection B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. The Company believes this project qualifies for the following exemption(s),

f. "power lines or substations to be relocated or constructed which have undergone environmental review pursuant to CEQA as part of a larger project, and for which the final CEQA document (Environmental Impact Report (EIR) or Negative Declaration) finds no significant unavoidable environmental impacts caused by the proposed line or substation."

Madera County adopted a Mitigated Negative Declaration for Paramount Farms' Conditional Use Permit #2013-026, finding no significant unavoidable environmental impacts resulting from PG&E's proposed facilities. (Approved on March 4, 2014)

- f. "power lines or substations to be relocated or constructed which have undergone environmental review pursuant to CEQA as part of a larger project, and for which the final CEQA document (Environmental Impact Report (EIR) or Negative Declaration) finds no significant unavoidable environmental impacts caused by the proposed line or substation."

On March 4, 2014, Madera County approved a Mitigated Negative Declaration for Paramount Farms' Conditional Use Permit #2013-026, finding no significant unavoidable environmental impacts resulting from PG&E's proposed facilities.

Additional Project Information: To obtain further information on the proposed project, please call PG&E's Project Information Line at (415) 973-5530.

Public Review Process: Individuals or groups may protest the proposed construction if they believe that PG&E has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and project name.
3. A clear description of the reason for the protest.
4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.
