Advice Letters 4384-E

Brian K. Cherry
Vice President, Regulation and Rates
Pacific Gas and Electric Company
77 Beale Street, Mail Code B10C
P.O. Box 770000
San Francisco, CA  94177

Subject:  Submits Notice of Construction, Pursuant to G.O. 131-D, for the
Construction of the Newark-Milpitas No. 1 115 kV & Dixon Landing -
McKee 115 kV Power Line Bart Interconnection - in the City of Milpitas,
County of Santa Clara.

Dear Mr. Cherry:

Advice Letters 4384-E is effective April 27, 2014.

Sincerely,

Edward F. Randolph
Edward F. Randolph, Director
Energy Division
March 28, 2014

Advice 4384-E
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of the NEWARK-MILPITAS No. 1 115 kV and DIXON LANDING - MCKEE 115 kV Power Line BART INTERCONNECTION - in the City of Milpitas, County of Santa Clara

Pacific Gas and Electric Company (“PG&E” or “the Company”) hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

In order to interconnect with a planned substation to be owned and operated by Santa Clara Valley Transportation Authority (VTA) for the BART Silicon Valley Phase 1—Berryessa Extension, to be located just north of the Railroad Court cul-de-sac in Milpitas, Pacific Gas and Electric Company (PG&E) is proposing to install an approximately 300-foot-long tap line from a new tubular steel interset pole on the existing Newark-Milpitas No. 1 115 kV Power Line into the new substation (intersetting additional support structures, larger project CEQA). To install the tap, PG&E will also interset one tubular steel pole in-line in the adjacent, existing Dixon Landing - McKee 115 kV Power Line (intersetting additional support structures), which is located on the same existing towers as the Newark-Milpitas No. 1 115 kV Power Line. The interset poles will be located to the north of the new substation and east of Berryessa Street between the two railroad tracks. To support the tap as it enters the substation, PG&E will also install a new tubular steel pole on the north end of the substation property. All new poles will be approximately 100 feet tall. Construction is tentatively
scheduled to begin in June 2014 or as soon as project plans and approvals are in place, with completion in October 2014, or as soon as possible after construction begins.

CPUC General Order 131-D, Section III, B.1, exempts projects meeting specific conditions from the CPUC’s requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemptions:

c. the minor relocation of existing power line facilities up to 2,000 feet in length, or the interseting of additional support structures between existing support structures.

e. power lines or substations to be relocated or constructed which have undergone environmental review pursuant to CEQA as part of a larger project, and for which the final CEQA document (Environmental Impact Report (EIR) or Negative Declaration) finds no significant unavoidable environmental impacts caused by the proposed line or substation.

The Santa Clara Valley Transportation Authority adopted the 2nd Supplemental Environmental Impact Report for the Silicon Valley Rapid Transit Corridor—BART Extension to Milpitas, San Jose, and Santa Clara in March 2011, including four addenda, which finds no significant unavoidable environmental impacts resulting from PG&E’s proposed facilities. (State Clearinghouse # 2002022004)

Additionally, G.O. 131-D requires utilities to employ "no cost" and specified "low cost" measures to reduce public exposure to electric and magnetic fields (EMFs) in accordance with CPUC Decision 06-01-042 and the “EMF Guidelines for Electrical Facilities.” The following measure is proposed for this project:

- Because there are no EMF mitigation measures available on this project that would meet the CPUC’s benchmark of 4% or less of the total project cost, no “no cost” or “low cost” measures will be employed.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

**Protests**

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by April 17, 2014, which is 20 days after the date of this filing. Protests should be mailed to the following address:
Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address show above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

David T. Kraska  
Attorney, Law Department  
Pacific Gas and Electric Company  
P.O. Box 7442  
San Francisco, California 94120  
Facsimile: (415) 973-0516

Brian K. Cherry  
Vice President, Regulatory Relations  
Pacific Gas and Electric Company  
P.O. Box 770000, Mail Code B10C  
San Francisco, California 94177  
Facsimile: (415) 973-7226  
E-Mail: PGETariffs@pge.com

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of G.O. 131-D exist.

**Effective Date**

The Company requests that this advice filing become effective on **April 27, 2014**, which is 30 days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

**Notice**

A copy of this advice letter is being sent electronically and via U.S. Mail to parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the “Notice Distribution
List included in Attachment I. All electronic approvals should be sent to e-mail PGETariffs@pge.com. Advice letter filings can also be accessed electronically at http://www.pge.com/tariffs/.

Vice President – Regulatory Relations

cc: Parties Listed in G.O. 131-D, Paragraphs B.1 and B.2

Advice Letter (AL) #: 4384-E Tier: N/A

Subject of AL: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of the NEWARK-MILPITAS No. 1 115 kV and DIXON LANDING - MCKEE 115 kV Power Line BART INTERCONNECTION - in the City of Milpitas, County of Santa Clara

Keywords (choose from CPUC listing): Power Lines

AL filing type: ☑ One-Time

If AL filed in compliance with a Commission order, indicate relevant Decision/Resolution #: Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL: N/A

Is AL requesting confidential treatment? If so, what information is the utility seeking confidential treatment for: N/A

Confidential information will be made available to those who have executed a nondisclosure agreement: N/A

Name(s) and contact information of the person(s) who will provide the nondisclosure agreement and access to the confidential information: N/A

Resolution Required? ☑ Yes ☐ No

Requested effective date: April 27, 2014

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed: N/A

Protests, dispositions, and all other correspondence regarding this AL are due no later than 20 days after the date of this filing, unless otherwise authorized by the Commission, and shall be sent to:

PROJECT NAME: NEWARK-MILPITAS No. 1 115 kV and DIXON LANDING - MCKEE 115 kV Power Line BART INTERCONNECTION - (City of Milpitas, Order Number 30896184)
ADVICE LETTER NUMBER: 4384-E

Proposed Project: In order to interconnect with a planned substation to be owned and operated by Santa Clara Valley Transportation Authority (VTA) for the BART Silicon Valley Phase 1—Berryessa Extension to be located just north of the Railroad Court cul-de-sac in Milpitas, Pacific Gas and Electric Company (PG&E) is proposing to install an approximately 300-foot-long tap line from a new tubular steel interset pole on the existing Newark-Milpitas No. 1 115 kV Power Line into the new substation (intersetting additional support structures, larger project CEQA). To install the tap, PG&E will also interset one tubular steel pole in-line in the adjacent, existing Dixon Landing - McKee 115 kV Power Line (intersetting additional support structures), which is located on the same existing towers as the Newark-Milpitas No. 1 115 kV Power Line. The interset poles will be located to the north of the new substation and east of Berryessa Street between the two railroad tracks. To support the tap as it enters the substation, PG&E will also install a new tubular steel pole on the northeast end of the substation property. All new poles will be approximately 100 feet tall.

Construction is tentatively scheduled to begin in June 2014 or as soon as project plans and approvals are in place, with completion will also install a new tubular steel pole on the north end of the substation property. All new poles will be approximately 100 feet tall.

Electric and Magnetic Fields (EMF): Pacific Gas and Electric Company will employ “no cost” and specified “low cost” measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 06-01-042 and Pacific Gas and Electric Company’s “EMF Design Guidelines for Electrical Facilities.” The following measure is proposed for this project:

- Because there are no EMF mitigation measures available on this project that would meet the CPUC’s benchmark of 4% or less of the total project cost, no “no cost” or “low cost” measures will be employed.

Exemption from CPUC Permit Requirement: CPUC General Order 131-D, Section III, B.1, exempts projects meeting specific conditions from the CPUC’s requirement to file an application requesting authority to construct. Pacific Gas and Electric Company believes this project qualifies for the following exemptions:

- The minor relocation of existing power line facilities up to 2,000 feet in length, or the intersetting of additional support structures between existing support structures.

Additional Project Information: To obtain further information on the proposed project, please call PG&E’s Project Information Line at (415) 973-5530.

Public Review Process: Individuals or groups may protest the proposed construction if they believe that PG&E has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and Project Name.
3. A clear description of the reason for the protest.
4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by April 17, 2014 at the following address:

PG&E must respond within five business days of receipt and serve its response on each protestant and the Energy Division. Within 30 days after PG&E has submitted its response, the CPUC Executive Director will send you a copy of an Executive Resolution granting or denying PG&E’s request and stating the reasons for the decision.

Assistance in Filing a Protest: If you need assistance in filing a protest, contact the CPUC Public Advisor:
email: public.advisor@cpuc.ca.gov or call: 1-866-849-8390 (toll-free), or (415) 703-2074, or TTY (415) 703-5258

Public Comment: Even if you do not want to file an official protest, you may still comment on the request. To do so, send your comments to the Energy Division at the address noted above. Please reference Advice Letter 4384-E.
