Advice 4386-E
(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

Subject: Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Fulton-Molino-Cotati 60kV Power Line Relocation Project in the City of Santa Rosa, County of Sonoma

Pacific Gas and Electric Company ("PG&E" or "the Company") hereby submits notice pursuant to General Order (G.O.) 131-D, Section XI, Subsection B.4, of the construction of facilities that are exempt from a Permit to Construct.

Purpose

This advice letter provides a copy of the Notice of Proposed Construction (Attachment I) and the Notice Distribution List, which comply with the noticing requirements found in G.O. 131-D, Section XI.

Background

The City of Santa Rosa has requested PG&E to relocate two segments of the existing Fulton-Molino-Cotati 60 Kilovolt (kV) Power Line. Relocating these segments will help accommodate the City's Stony Point Road Reconstruction and Widening Project. The first approximately 5,200-foot-long segment of the power line begins on the west side of Stony Point Road approximately 300 feet south of the road's intersection with Highway 12. The power line crosses over Stony Point Road heading south, and ends on the east side of Stony Point Road approximately 175 feet south of the road's intersection with Northpoint Parkway. The second approximately 800-foot-long segment of the power line begins at the northwest corner of the intersection of Hearn Avenue and Stony Point Road and ends approximately 800 feet south on the west side of Stony Point Road. The line relocation will occur entirely within the existing franchise area of the Stony Point Road Reconstruction and Widening Project (existing franchise). The relocation project will install approximately 21 new wood poles, remove approximately 4 existing wood poles, and shorten approximately 16 wood poles just above the distribution wires. The existing poles are approximately 55 to 105

feet tall and the new poles will be approximately 75 to 110 feet tall. The taller poles are required to comply with California Public Utilities Commission (CPUC) General Order 95 minimum ground-to-conductor clearance requirements over roadway improvements, and to reduce electric and magnetic fields at ground level. Construction is tentatively scheduled to begin in April 2014, or as soon as project plans and approvals are in place. The project is scheduled to be completed in June 2014, or as soon as possible after construction begins.

CPUC General Order 131-D, Section III, Subsection B.1, exempts projects meeting specific conditions from the CPUC's requirement to file an application requesting authority to construct. The Company believes this project qualifies for the following exemption(s),

- g. "power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR [Environmental Impact Report] finds no significant unavoidable environmental impacts."

Additionally, G.O. 131-D requires utilities to employ "no cost" and specified "low cost" measures to reduce public exposure to electric and magnetic fields (EMFs) in accordance with CPUC Decision 06-01-042 and the "EMF Guidelines for Electrical Facilities." Specifically, PG&E will increase the height of overhead lines to reduce EMF strength at ground level near school and residential land use areas.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

Protests

Anyone wishing to protest this filing may do so by filing a protest with the CPUC and the Company by April 21, 2014, which is 20 days after the date of this filing. Protests should be mailed to the following address:

CPUC Energy Division
ED Tariff Unit
505 Van Ness Avenue, 4th Floor
San Francisco, California 94102

Facsimile: (415) 703-2200
E-mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address show above.

The protest also should be sent via U.S. mail (and by facsimile and electronically, if possible) to PG&E at the address shown below on the same date it is mailed or delivered to the Commission:

David T. Kraska
Attorney, Law Department
Pacific Gas and Electric Company
P.O. Box 7442
San Francisco, California 94120
Facsimile: (415) 973-0516

Brian K. Cherry
Vice President, Regulatory Relations
Pacific Gas and Electric Company
P.O. Box 770000, Mail Code B10C
San Francisco, California 94177
Facsimile: (415) 973-7226
E-Mail: PGETariffs@pge.com

Persons or groups may protest the proposed construction if they believe that the Company has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of G.O. 131-D exist.

Effective Date

The Company requests that this advice filing become effective on **May 1, 2014**, which is 30 days after the date of filing. (In accordance with G.O. 131-D, construction will not begin until 45 days after notice is first published.)

Notice

A copy of this advice letter is being sent electronically and via U.S. Mail to parties shown on the attached list, including the parties listed in G.O. 131-D, Section XI, Paragraphs B.1 and B.2. These parties are identified in the "Notice Distribution List" included in Attachment I. All electronic approvals should be sent to e-mail PGETariffs@pge.com. Advice letter filings can also be accessed electronically at <http://www.pge.com/tariffs/>.

MUST BE COMPLETED BY UTILITY (Attach additional pages as needed)

Company name/CPUC Utility No. **Pacific Gas and Electric Company (ID U39 E)**

Utility type:

ELC GAS
 PLC HEAT WATER

Contact Person: Igor Grinberg

Phone #: 415-973-8580

E-mail: ixg8@pge.com and PGETariffs@pge.com

EXPLANATION OF UTILITY TYPE

ELC = Electric GAS = Gas
PLC = Pipeline HEAT = Heat WATER = Water

(Date Filed/ Received Stamp by CPUC)

Advice Letter (AL) #: **4386-E**

Tier: N/A

Subject of AL: **Submits Notice of Construction, Pursuant to General Order 131-D, for the Construction of Fulton-Molino-Cotati 60kV Power Line Relocation Project in the City of Santa Rosa, County of Sonoma**

Keywords (choose from CPUC listing): Power Lines

AL filing type: Monthly Quarterly Annual One-Time Other _____

If AL filed in compliance with a Commission order, indicate relevant Decision/Resolution #: Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL: N/A

Is AL requesting confidential treatment? If so, what information is the utility seeking confidential treatment for: N/A

Confidential information will be made available to those who have executed a nondisclosure agreement: N/A

Name(s) and contact information of the person(s) who will provide the nondisclosure agreement and access to the confidential information: N/A

Resolution Required? Yes No

Requested effective date: **May 1, 2014**

No. of tariff sheets: N/A

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed: N/A

Protests, dispositions, and all other correspondence regarding this AL are due no later than 20 days after the date of this filing, unless otherwise authorized by the Commission, and shall be sent to:

PROJECT NAME: FULTON-MOLINO-COTATI 60 KV POWER LINE RELOCATION PROJECT (City of Santa Rosa. PM 30691564)
ADVICE LETTER NUMBER: 4386-E

Proposed Project: The City of Santa Rosa has requested PG&E to relocate two segments of the existing Fulton-Molino-Cotati 60 Kilovolt (kV) Power Line. Relocating these segments will help accommodate the City's Stony Point Road Reconstruction and Widening Project. The first approximately 5,200-foot-long segment of the power line begins on the west side of Stony Point Road approximately 300 feet south of the road's intersection with Highway 12. The power line crosses over Stony Point Road heading south, and ends on the east side of Stony Point Road approximately 175 feet south of the road's intersection with Northpoint Parkway. The second approximately 800-foot-long segment of the power line begins at the northwest corner of the intersection of Hearn Avenue and Stony Point Road and ends approximately 800 feet south on the west side of Stony Point Road. The line relocation will occur entirely within the existing franchise area of the Stony Point Road Reconstruction and Widening Project (existing franchise). The relocation project will install approximately 21 new wood poles, remove approximately 4 existing wood poles, and shorten approximately 16 wood poles just above the distribution wires. The existing poles are approximately 55 to 105 feet tall and the new poles will be approximately 75 to 110 feet tall. The taller poles are required to comply with California Public Utilities Commission (CPUC) General Order 95 minimum ground-to-conductor clearance requirements over roadway improvements, and to reduce electric and magnetic fields at ground level. Construction is tentatively scheduled to begin in April 2014, or as soon as project plans and approvals are in place. The project is scheduled to be completed in June 2014, or as soon as possible after construction begins.

Electric and Magnetic Fields (EMF): PG&E will employ "no cost" and specified "low cost" measures to reduce public exposure to EMF in accordance with California Public Utilities Commission (CPUC) Decision 06-01-042 and PG&E's "EMF Design Guidelines for Electrical Facilities." Specifically, PG&E will increase the height of overhead lines to reduce EMF strength at ground level near school and residential land use areas.

Exemption from CPUC Permit Requirement: CPUC General Order 131-D, Section III, B.1, exempts a utility from the CPUC's requirement to file an application requesting authority to construct if a project meets specific conditions. This project qualifies for the following exemption:

- g. "power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR [Environmental Impact Report] finds no significant unavoidable environmental impacts."

Additional Project Information: To obtain further information on the proposed project, please call PG&E's Project Information Line at (415) 973-5530.

Public Review Process: Individuals or groups may protest the proposed construction if they believe that PG&E has incorrectly applied for an exemption or that the conditions set out in Section III.B.2 of General Order 131-D exist;

- a. There is reasonable possibility that the activity may have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies; or
- b. The cumulative impact of successive projects of the same type in the same place, over time, is significant; or
- c. There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

Protests should include the following:

- 1. Your name, mailing address and daytime telephone number.
- 2. Reference to the CPUC Advice Letter Number and Project Name.
- 3. A clear description of the reason for the protest.
- 4. Whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be filed by April 21, 2014 at the following address:

Director, Energy Division
 California Public Utilities Commission
 505 Van Ness Avenue, Fourth Floor
 San Francisco, California 94102

With a copy mailed to:

David Kraska, Law Department
 Pacific Gas and Electric Company
 P.O. Box 7442
 San Francisco, California 94120

PG&E must respond within five business days of receipt and serve its response on each protestant and the Energy Division. Within 30 days after PG&E has submitted its response, the CPUC Executive Director will send you a copy of an Executive Resolution granting or denying PG&E's request and stating the reasons for the decision.

Assistance in Filing a Protest: If you need assistance in filing a protest, contact the CPUC Public Advisor:
email: public.advisor@cpuc.ca.gov or call: 1-866-849-8390 (toll-free), or (415) 703-2074, or TTY (415) 703-5258.

Public Comment: Even if you do not want to file an official protest, you may still comment on the request. To do so, send your comments to the Energy Division at the address noted above. Please reference Advice Letter 4386-E.
