Advice 4396-E
(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Limited One Time Agreement to Perform Tariff Scheduled Related Work for the University of California

Pacific Gas and Electric Company (PG&E) hereby submits for filing a limited one time agreement modifying PG&E's standard indemnity clause as it appears on Form 62-4527.

Purpose

Approval of indemnity clause as it appears in attached Limited One Time Agreement to Perform Tariff Scheduled Related Work.

Background

The Regents of the University of California (UC Davis) has requested that PG&E remove the existing overhead electric lines that provide transmission service to a site occupied by UC Davis, the now decommissioned Homestake Mine, 26774 Morgan Valley Road in Lower Lake (Lake County). UC Davis requested that PG&E's transmission facilities be replaced with new facilities that will provide distribution service. The scope of work involves the installation of approximately 442' of overhead 12 kV conductor, and approximately 150' of 12 kV underground cable to serve the customer. PG&E will remove the transmission level service to the customer-owned substation after the new distribution level service is energized. Electric Rule 15.I.1 governs the rearrangement of distribution facilities. Rearrangement is generally performed under PG&E's general contract form, Agreement to Perform Tariff Schedule Related Work, Form 62-4527. UC Davis has objected to the scope of the indemnity provision in Form 62-4527, and has requested that its obligation to indemnify PG&E be limited to any losses that are caused by or result from UC Davis' negligent or intentional acts or omissions. To address this concern, PG&E has agreed to modify the indemnity language found in Form 62-4527 and to use revised language in a limited One Time Agreement to Perform Tariff Scheduled Related Work.

One Time Form 62-4527 Revisions

Please see attached Limited One Time Agreement to Perform Tariff Scheduled Related Work.
