**Subject: PG&E's First Quarter 2014 Procurement Transactions Compliance Filing**

Dear Ms. Allen:

On April 30, 2014, Pacific Gas and Electric Company (PG&E) filed a Tier 2 Advice Letter (AL) 4409-E to comply with D.02-10-062, D.03-12-062, D.04-07-028, D.04-01-050, D.04-12-048 and D.07-12-052. Contained in the Advice Letter filing was the Procurement Transaction Quarterly Compliance Report (QCR) for the period January through March 2014 (Q1 2014). The AL is a compliance filing seeking to demonstrate that PG&E's electric and gas procurement transactions for the first quarter of 2014 are in conformance with PG&E's Bundled Procurement Plan approved in D.12-01-033 and D.12-04-046.

On May 20, 2014, the Cogeneration Parties filed a protest to AL 4409-E, raising two broad objections to the AL: 1) the Commission should "enforce existing orders in a consistent, systematic, and non-discriminatory manner for the public release of [confidential procurement] data", and 2) data reported public elsewhere should not be redacted here.<sup>1</sup>

On May 28, 2014, PG&E filed a reply to the Cogeneration Parties' protest, stating that "the protest should be rejected because: 1) the policy issues raised by the Cogeneration Parties regarding the public disclosure of confidential procurement data is outside the scope of this advice letter filing; 2) PG&E's claim regarding confidential periods for certain specific data is appropriate; and 3) PG&E has not publicly released the specific information that the Cogeneration Parties argue has been released elsewhere."

<sup>1</sup> The Cogeneration Parties consist of the California Cogeneration Council, the Cogeneration Association of California, and the Independent Energy Producers Association.

On June 27, 2014, Energy Division suspended the AL to allow additional time to complete the review.

On August 8, 2014, PG&E filed a supplement to the Advice Letter, 4409-E-A, to include the public Independent Evaluator (IE) report for PG&E's second Combined Heat and Power (CHP) Request for Offer (RFO) as a public attachment to AL 4409-E.

On October 15, 2014, PG&E filed an additional supplement to the Advice Letter, 4409-E-B, to correct certain information included in PG&E's original filing (AL 4409-E).

On December 12, 2014, at Energy Division's request, PG&E filed a supplement to the Advice Letter, 4409-E-C to include a public version of new contracts and amendments in Attachment H, where counterparty, location, name of facility, size and length of contracts are disclosed.

### **Disposition**

Energy Division has reviewed the filings by PG&E and concluded that PG&E's Advice Letter 4409-E, 4409-E-A, 4409-E-B, and 4409-E-C are in compliance with PG&E's Bundled Procurement Plan approved in D.12-01-033 and D.12-04-046. Energy Division has reviewed the protests and concluded one issue raised in the protest has merit. Energy Division requested PG&E to file a supplemental to address the issue, and PG&E complied. The other bases for protests are without merit or not based on proper ground for protest of an Advice Letter (see General Order 96-B, Sections 7.6.1 and 7.4.2). These other protests do not demonstrate that PG&E's actions would violate CPUC orders, therefore, PG&E's Advice Letter should be approved.

The Cogeneration Parties oppose PG&E's filing based on three objections. First, the protestant objects to the disparate implementation of the disclosure of Renewable Portfolio Standard (RPS) and conventional procurement data. The protestant requested a delay in the approval of AL 4409-E and an investigation into the feasibility of regular utility updates to an Excel workbook containing conventional generation resource information available on the Commission's website. The review of the QCR filing and the confidentiality issues should be separated from the substance of the subject AL because the confidentiality issues fall outside the scope of permissible bases for protest of an Advice Letter. The protestant can request conventional generation information for which the confidentiality period has expired through the Public Records Act at any time. They can request any document that is not privileged, confidential, or otherwise protected. Energy Division is not legally obligated to post all data that is no longer confidential. The question of whether Energy Division should update its process for posting material that is no longer under the protection of D.06-06-066 can be considered separately, and is outside of the scope of this AL.

Second, the protestant argues that PG&E's request for indefinite confidential treatment of Attachment B counterparty information contravenes Commission policy. Under G.O. 66-C, the Commission allows the protection of information if revelation of this information would place the company at an unfair business disadvantage. PG&E is seeking protection for counterparty credit information under G.O. 66-C. Therefore, PG&E's request to keep Attachment B confidential is granted.

Meredith Allen

Page 3 of 3

The protestant also argues that certain information such as counterparty, location, name of facility, size and length of contract in Attachment H, New and Amended Contracts Executed should not be redacted. According to D.14-02-040 and D.06-06-066, pricing and terms and conditions of contracts are confidential for three years. Other information such as counterparty, name of facility, size and length of contract is public immediately. The protestant's argument that PG&E should treat such information as public has merit. Energy Division requested PG&E disclose counterparty, location, name of facility, size and length of contracts in Attachment H. On December 12, 2014, PG&E filed supplemental Advice Letter 4409-E-C to comply with this request.

Third, the protestant objects to PG&E's request for confidential treatment of electric transaction data to the extent that the data is publicly reported to the Federal Energy Regulatory Commission (FERC). For data that has been publicly reported to the FERC, PG&E should disclose such data publicly in the QCR. PG&E has not reported any wholesale electric sales data to FERC in Q1 of 2014; therefore, PG&E has no such data to disclose in the Q1 QCR AL.

One of the Cogeneration Parties' protested issues has been addressed by PG&E. The other issues are without merit or are not the proper basis for a protest to this Advice Letter. Therefore, the protest is denied and PG&E's Advice Letter is approved.

Sincerely,

Edward Randolph  
Director, Energy Division

I, Marianne Aikawa, declare:

1. I am presently employed by Pacific Gas and Electric Company (“PG&E”), and have been an employee at PG&E since 1989. My current title is Senior Manager within PG&E’s Energy Procurement organization. In this position my responsibilities include reviewing regulatory reports. In carrying out these responsibilities, I have acquired knowledge of PG&E’s regulatory reporting and have also gained knowledge of electric energy procurement data, processes, and practices. Through this experience, I have become familiar with the type of information that would affect the regulatory filing, as well as with the type of information that would be considered confidential and proprietary.
2. Based on my knowledge and experience, and in accordance with Decision (“D.”) 08-04-023 and the August 22, 2006 “Administrative Law Judge’s Ruling Clarifying Interim Procedures for Complying with Decision 06-06-066,” I make this declaration seeking confidential treatment of PG&E’s Supplemental Advice Letters 4409-E-C, Public Attachment H.
3. Attached to this declaration is a matrix identifying the data and information for which PG&E is seeking confidential treatment. The matrix specifies that the material PG&E is seeking to protect constitutes the particular type of data and information listed in Appendix I of D.06-06-066 and Appendix D.08-04-023 (the “IOU Matrix”), and/or constitutes information that should be protected under General Order 66-C. The matrix also specifies the category or categories in

the IOU Matrix to which the data and information corresponds, and why confidential protection is justified. Finally, the matrix specifies that: (1) PG&E is complying with the limitations specified in the IOU Matrix for that type of data or information; (2) the information is not already public and/or cannot be reasonably redacted; and (3) the data cannot be aggregated, redacted, summarized or otherwise protected in a way that allows partial disclosure. By this reference, I am incorporating into this declaration all of the explanatory text in the attached matrix that is pertinent to this submittal.

I declare under penalty of perjury, under the laws of the State of California, that the foregoing is true and correct.

Executed on December 12, 2014, at San Francisco, California.
