Advice 3613-G/4679-E
(Pacific Gas and Electric Company ID U 39 M)

Public Utilities Commission of the State of California

Purpose

In compliance with Decision (D.) 14-05-016, Decision Adopting Rules to Provide Access to Energy Usage and Usage-Related Data While Protecting Privacy of Personal Data, Pacific Gas and Electric Company (PG&E) submits this Tier 1 advice letter for approval to “publicly note the transfer of information, amend its tariffs, and update the Data Catalog.” (D.14-05-016, Ordering Paragraph (OP) 9).

Background

On May 5, 2014, the California Public Utilities Commission (CPUC or Commission) issued D.14-05-016, which adopted rules that provide access to energy usage and usage-related data to local governments, academic researchers, and state and federal agencies when such access is consistent with state law and the CPUC’s Privacy Rules. To facilitate this data access, the CPUC adopted a Data Request and Release Process (DRRP) that PG&E must follow when receiving and fulfilling requests for data covered by D.14-05-016. On July 30, 2014, PG&E filed a Tier 2 Advice Letter (3501-G/4468-E) to establish the DRRP for providing data to entities eligible to request access to energy data pursuant to D.14-05-016.

Public Notice of Information Transfer

On December 1, 2014, PG&E implemented its energy data request portal. The web portal is referred to as the Energy Data Request Program (EDRP), which has three primary functions: 1) publishing quarterly customer energy usage reports by ZIP code; 2) enabling an online request intake process for qualified parties to request energy usage data from PG&E; and 3) providing information regarding the Energy Data Access Committee (EDAC) meetings.
From April 1, 2015 to June 30, 2015, PG&E has fulfilled three data requests from local governments. Below are the details of those requests by requesting party.
