San Francisco, CA 94177

Subject: Procurement Transaction Quarterly Compliance Filing (Q3, 2015) and Supplemental Filing

Dear Mr. Jacobson:

Advice Letter 4731-E and 4731-E-A are effective as of November 29, 2015.

Sincerely,

Edward Randolph
Director, Energy Division
October 30, 2015

Advice 4731-E
(Pacific Gas and Electric Company ID U 39 E)

Public Utilities Commission of the State of California

Subject: Procurement Transaction Quarterly Compliance Filing (Q3, 2015)

Purpose

Pacific Gas and Electric Company (“PG&E”) hereby submits to the California Public Utilities Commission (“Commission” or “CPUC”) its compliance filing for the third quarter of 2015 in conformance with PG&E’s Bundled Procurement Plan (“BPP”) approved by the Commission in Decision (“D.”) 12-01-033 and D.12-04-046. PG&E’s submittal of this Procurement Transaction Quarterly Compliance Report (“QCR”) for record period July 1, 2015 through September 30, 2015, (Q3-2015) is in accordance with D.03-12-062, Ordering Paragraph 19, which requires that the Quarterly Procurement Plan Compliance Reports be submitted within 30 days of the end of the quarter.

Background

In D.07-12-052, the Commission directed Energy Division and the Investor-Owned Utilities (“IOUs”) to continue the collaborative effort to develop a reformatted QCR. The Commission authorized Energy Division to implement a reformatted QCR and to make ministerial changes to the content and format of the report as needs arise. Energy Division and the IOUs finalized the QCR format in December 2008. This QCR is consistent with the final format authorized by Energy Division on December 15, 2008.

Compliance Items

Attachment 1 to this QCR includes a narrative with supporting Confidential Attachments that conforms to the reformatted QCR. The public version of Attachment 1 includes the Narrative, which is not confidential. Attachments 2 and 3 include the public versions of Attachments G and H, respectively. The confidential version of this QCR includes the following supporting Confidential Attachments:

Attachment A: Third Quarter 2015 Electric and Natural Gas Transactions
Attachment B: Third Quarter 2015 Counter-Party Information
Attachment C: Third Quarter 2015 Electric Transactions Summary
Attachment D: Third Quarter 2015 Natural Gas Transactions Summary
Attachment E: Third Quarter 2015 Other Transactions
Attachment F: Third Quarter 2015 Key Briefing Packages
Attachment G: Third Quarter 2015 Independent Evaluator (IE) Report
Attachment H: Third Quarter 2015 New Contracts Executed/Contracts Amended
Attachment I: Summary of Retained Generation Investments Completed During Third Quarter 2015
Attachment J: System Load Requirements/Conditions
Attachment K: Risk Management Strategy Communication and Management Disclosure
Attachment L: Reasonable Number of Analyses Models, Description of Models, and How Models Operate
Attachment M: Transactions Subject to Strong Showing for the Third Quarter

Attachment 4 to this QCR includes a confidentiality declaration and matrix.

The public version of this QCR is provided to the service lists for Rulemakings (“R.”) 10-05-006 and R.13-12-010. The confidential version of this QCR is provided to PG&E’s Procurement Review Group.

The filing will not increase any current rate or charge, cause the withdrawal of service, or conflict with any rate schedule or rule.

**Protests**

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, facsimile or E-mail, no later than November 19, 2015, which is 20 days after the date of this filing. Protests must be submitted to:

CPUC Energy Division
ED Tariff Unit
505 Van Ness Avenue, 4th Floor
San Francisco, California 94102

Facsimile: (415) 703-2200
E-mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest shall also be sent to PG&E either via E-mail or U.S. mail (and by facsimile, if possible) at the address shown below on the same date it is mailed or delivered to the Commission:
Any person (including individuals, groups, or organizations) may protest or respond to an advice letter (General Order 96-B, Section 7.4). The protest shall contain the following information: specification of the advice letter protested; grounds for the protest; supporting factual information or legal argument; name, telephone number, postal address, and (where appropriate) e-mail address of the protestant; and statement that the protest was sent to the utility no later than the day on which the protest was submitted to the reviewing Industry Division (General Order 96-B, Section 3.11).

**Effective Date**

In accordance with D.02-10-062, the requested effective date of this Tier 2 advice letter is November 29, 2015, which is 30 days after the date of filing.

**Notice**

In accordance with General Order 96-B, Section IV, a copy of this advice letter excluding the confidential appendices is being sent electronically and via U.S. mail to parties shown on the attached list and the service lists for R.10-05-006 and R.13-12-010. Address changes to the General Order 96-B service list and all electronic approvals should be sent to e-mail PGETariffs@pge.com. For changes to any other service list, please contact the Commission’s Process Office at (415) 703-2021 or at Process_Office@cpuc.ca.gov. Advice letter filings can also be accessed electronically at: http://www.pge.com/tariffs.

## California Public Utilities Commission

### Advice Letter Filing Summary

**Energy Utility**

**Company name/CPUC Utility No.** Pacific Gas and Electric Company (ID U39 E)

**Utility type:**
- [x] ELC
- [ ] GAS
- [ ] PLC
- [ ] HEAT
- [ ] WATER

**Contact Person:** Jennifer Wirowek

**Phone #:** (415) 973-1419

**E-mail:** J6ws@pge.com and PGETariffs@pge.com

### Explanation of Utility Type

<table>
<thead>
<tr>
<th>ELC</th>
<th>GAS</th>
<th>PLC</th>
<th>HEAT</th>
<th>WATER</th>
</tr>
</thead>
<tbody>
<tr>
<td>Electric</td>
<td>Gas</td>
<td>Pipeline</td>
<td>Heat</td>
<td>Water</td>
</tr>
</tbody>
</table>

**Advice Letter (AL) #:** 4731-E

**Tier:** 2

**Subject of AL:** Procurement Transaction Quarterly Compliance Filing (Q3, 2015)

**Keywords (choose from CPUC listing):** Compliance, Procurement

**AL filing type:**
- [ ] Monthly
- [x] Quarterly
- [ ] Annual
- [ ] One-Time
- [ ] Other

If AL filed in compliance with a Commission order, indicate relevant Decision/Resolution #: D.12-01-033, D.12-04-046 and D.03-12-062

**Does AL replace a withdrawn or rejected AL?** If so, identify the prior AL: No

**Summarize differences between the AL and the prior withdrawn or rejected AL:**

Is AL requesting confidential treatment? If so, what information is the utility seeking confidential treatment for: Yes. Please see attached Confidentiality Declarations and Matrix.

Confidential information will be made available to those who have executed a nondisclosure agreement: [x] Yes  [ ] No

**Name(s) and contact information of the person(s) who will provide the nondisclosure agreement and access to the confidential information:** Jay Bukowski, (415) 973-1727 / Peter Koszalka (415) 973-3818 / Marianne Aikawa (415) 973-0375

**Resolution Required?** [ ] Yes  [x] No

**Requested effective date:** November 29, 2015

**Estimated system annual revenue effect (%):** N/A

**Estimated system average rate effect (%):** N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

**Tariff schedules affected:** N/A

**Service affected and changes proposed:** N/A

**Pending advice letters that revise the same tariff sheets:** N/A

Protests, dispositions, and all other correspondence regarding this AL are due no later than 20 days after the date of this filing, unless otherwise authorized by the Commission, and shall be sent to:

**California Public Utilities Commission**

**Energy Division**

Summary of Public Attachments

Public Attachment G: Independent Evaluator Reports, provides any relevant Independent Evaluator (IE) report(s) completed during the Quarter redacted to protect confidential information.

Public Attachment H: New Contracts Executed/Contracts Amended, provides a summary of all agreements executed and/or amended during the Quarter redacted to protect confidential information.

Summary of Confidential Attachments

Confidential Attachment A: Transactions, provides a summary of all transactions executed during the Quarter, which are less than five years in length and that have not been filed through a separate advice filing or application.

Confidential Attachment B: Counterparty Information, provides a summary of (1) all non-investment grade counterparties with whom PG&E transacted; and (2) the top 10 counterparties by volume during the Quarter.

Confidential Attachment C: Electric Transactions Summary, provides a summary of the electric transactions executed during the Quarter.

Confidential Attachment D: Natural Gas Transactions Summary, provides a summary of the gas transactions executed during the Quarter.

Confidential Attachment E: Other Transactions, provides the executed transactions resulting from non-energy-related products during the Quarter.

Confidential Attachment F: Key Briefing Packages, provides a summary of all relevant Procurement Review Group (PRG) agendas and presentations presented.

Confidential Attachment G: Independent Evaluator Reports, provides any relevant Independent Evaluator (IE) report(s) completed during the Quarter.

Confidential Attachment H: New Contracts Executed/Contracts Amended, provides a summary of all agreements executed and/or amended during the Quarter.
Summary of Confidential Attachments
(Continued)

Confidential Attachment I: Summary of Retained Generation Investments Completed, provides a summary of any investments related to retained generation facilities and multiple contracts for the same supplier, resource or facility, consistent with the requirements of D.07-01-039.

Confidential Attachment J: System Load Requirements/Conditions, provides a summary of all information related to addressing PG&E’s residual net open position.

Confidential Attachment K: Risk Management Strategy Communication and Management Disclosure, provides a summary of all procurement-related risk strategies and issues communicated to PG&E’s senior management.

Confidential Attachment L: Reasonable Number of Analyses Models, Description of Models, and How Models Operate, provides a summary of any models related to the relevant transactions identified in this filing.

Confidential Attachment M: Transactions Subject to Strong Showing, provides a summary and supporting documentation for strong showing transactions.
A. Introduction

As required by Ordering Paragraph (OP) 8 of Decision (D.) 02-10-062, and clarified in D.03-06-076, D.03-12-062, D.04-07-028, D.04-12-048 and D.07-12-052, Pacific Gas and Electric Company (PG&E) hereby provides its report demonstrating that its procurement-related transactions during the period July 1, 2015 through September 30, 2015 (Quarter) were in compliance with PG&E’s Bundled Procurement Plan (BPP or Plan) approved by the California Public Utilities Commission (CPUC or Commission) in D.12-01-033 and D.12-04-046.

B. Summary

During the Quarter, PG&E engaged in the following procurement activities in accordance with its BPP-approved procurement methods and practices:

1. Competitive Solicitations, Approval Through the Quarterly Compliance Report (QCR):
   a. None for the Quarter.

2. Other Competitive Solicitation Activity During the Quarter (are referenced here for informational purposes only):
   a. 2014 Energy Storage RFO (issued December 1, 2014)
   b. 2014 RPS RFO (issued January 5, 2015)
   c. RAM 6/Green Tariff Shared Renewables (issued July 7, 2015)

3. Other Procurement Activities, Approval Through the QCR – PG&E also seeks approval of the following transactions executed from procurement activities, other than competitive solicitations, through this QCR:
   a. Electric Transactions:
      ii. Convergence Bidding
      iii. Direct Bilateral Contracting for Short-Term Products
      iv. Electronic Solicitations
These procurement activities are described in greater detail in Section C.3, below.

b. Gas Transactions:
   i. Transparent Exchanges
   ii. Direct Bilateral Contracting for Short-Term Products
   iii. Voice Brokers
   iv. Electronic Solicitations

These procurement activities are described in greater detail in Section C.3, below.

4. Other Procurement Activities, Approval Through Separate Advice Filing or Regulatory Process – During the Quarter, approval of contracts resulting from the following procurement activities was requested through separate regulatory processes, and are referenced here for informational purposes only:
   a. Bilaterally negotiated contracts or amendments executed pursuant to other regulatory requirements.

C. Master Data Request Documentation

D.02-10-062, Appendix B, as clarified by D.03-06-076, sets forth specific elements to be addressed in this report. Each element is discussed below.

1. Identification of the ultimate decision maker(s) up to the Board level, approving the transactions.

   All procurement-related activity during the Quarter was approved and executed either by, or under the direction of, Fong Wan, Senior Vice President, Energy Procurement; Roy Kuga, Vice President, Energy Supply Management; Gary Jeung, Senior Director, Renewable Energy; Don Howerton, Director, Renewable Transactions; and/or Pete Koszalka, Director, Electric Gas Supply, consistent with the delegation of authority effective for the period.
2. **The briefing package provided to the ultimate decision maker.**

The “decision-maker” for a particular contemplated transaction depends on many factors, such as term, volume, and notional value. For many of the transactions during the Quarter, the “decision-maker” was a gas or power trading employee executing transactions per an established plan or to achieve a particular objective (such as balancing the portfolio supply and demand). For such transactions, briefing packages are not prepared. Briefing packages prepared during the Quarter for transactions or procurement activities that required senior management approval are included in Confidential Attachment K. In addition, copies of presentations made by PG&E to its Procurement Review Group (PRG) during the Quarter are included in Confidential Attachment F.

3. **Description of and justification for the procurement processes used to select the transactions.**

    a) **Electric Procurement – Description**

    BPP-approved electricity procurement processes used during the Quarter including:
    - CAISO’s Monthly CRR Allocations and Auctions
    - CAISO 2016 Annual CRR Allocation and Auction Process
    - Convergence Bidding
    - Direct Bilateral Contracting for Short-Term Products
    - Electronic Solicitations
    - Qualifying Facility/Combined Heat and Power (QF/CHP) Legacy Contracts
    - CHP Feed-in Tariffs

    b) **Electric Procurement – Justification**

    i. *For competitive solicitations, describe the process used to rank offers and select winning bid(s).*

        - PG&E did not execute any contracts during this Quarter for approval through this QCR.

    ii. *For other transactional methods, provide the documentation supporting the selection of the chosen products.*

        The approved procurement processes used during the Quarter and supporting documentation include the following:
CAISO Monthly CRR Allocation and Auction Process – PG&E procures CRRs to narrow the distribution of PG&E’s energy procurement costs due to electric transmission congestion. PG&E obtains CRRs, subject to risk assessment, for specific source/sink combinations as approved in its BPP.

PG&E acquires CRRs for any path (represented by a source-sink pair) connecting existing generation sources to existing loads (e.g., retail loads, Helms pumping load and wholesale load obligations) or for any path that PG&E reasonably anticipates that it might need to flow energy in the future due to the addition of new contracts, resources or load obligations. Additionally, there may be CRRs which are positively correlated in value with CRRs for paths that have limited availability. PG&E is also authorized to acquire CRRs for such positively correlated paths.

PG&E estimated that a portion of its generation, imports and load in the months of August 2015, September 2015 and October 2015, remained exposed to congestion risk, and, therefore, participated in the CAISO’s monthly CRR allocation and auction process to obtain CRRs to mitigate this risk. In July 2015, August 2015 and September 2015, PG&E participated in Tier 1, Tier 2 and the Auction of the CAISO’s monthly CRR process to procure CRRs for August 2015, September 2015 and October 2015, respectively. Relevant information is included in Confidential Attachment F, J, and L.

CAISO 2016 Annual CRR Allocation and Auction Process – PG&E participated in the 2016 Allocation Tier 1 and the Long-Term Allocation Tier of the CAISO’s 2016 Annual CRR Release Process. Awards from Tier 1 were posted on September 21, 2015, and are provided in this QCR. Awards for the Long-Term Tier were posted after the end of the Quarter and will be included in the next QCR. Relevant information is included in Confidential Attachments F, J, K, and L.

Convergence Bidding – Based on factors including anticipated loads, resource availabilities and intermittent resource generation forecasts, PG&E participates in the CAISO’s convergence bidding market. Relevant information is included in Confidential Attachments E, F and J.

Direct Bilateral Contracting for Short-Term Products

- Transmission: Transmission energy is purchased to relocate power from one point to another, often necessary outside a Regional Transmission Operator (RTO) such as the CAISO. Relevant information is included in Confidential Attachment A.

- Bookouts – In the course of scheduling physical power transactions which require transmission from one region to another, power is sometimes interrupted. In such cases it is necessary for the buyer and seller to settle the interrupted power financially. Those transactions
appear as sales back to the counterparty from which the power was originally purchased. Such transactions are commonly termed as “bookouts.” During the Quarter, PG&E executed one bookout contract. Relevant information is included in Confidential Attachment A.

– Resource Adequacy: During the Quarter, PG&E executed two bilateral short-term resource adequacy transactions. Both were for system sales and purchases. Relevant information and supporting justifications are included in Confidential Attachments E and H.

• Electronic Solicitations – Resource Adequacy: During the Quarter, PG&E executed three resource adequacy transactions via electronic solicitation. Relevant information is included in Confidential Attachment H.

• QF/CHP Legacy Contracts (For informational purposes only) – Some QF generators may execute a new PPA (i.e., Under 20 megawatts (MW) PURPA PPA or As-Available PPA) during the Quarter. In addition, many of the remaining legacy QF contracts are still active and may require amendments or letter agreements to help the generator meet the requirements of the Commission’s CHP Program (e.g., GHG administration and metering issues) that were not required under the former program. Relevant information is included in Confidential Attachment H.

• CHP Feed-in Tariffs (For informational purposes only) – Under the Waste Heat and Carbon Emissions Act, codified as California Public Utilities Code section 2840 et seq. (Stats. 2007, Ch. 713), the Commission established a standard tariff for the sale of electricity from efficient CHP systems under 20 MW, and directed the electrical corporations to purchase excess electricity from eligible CHP generators. A CHP generator that is certified by the California Energy Commission is eligible under the CEC’s legal and technical guidelines to obtain a CHP feed-in tariff. In D.09-12-042, the Commission approved three pro forma contracts for use with CHP systems (known as “AB 1613 PPAs”) that are applicable to generators of different sizes: a standard contract for CHP generators under 20 MW, a simplified PPA for CHP generators less than 5 MW, and a further simplified PPA for smaller CHP systems under 500 kW. Relevant information is included in Confidential Attachment H.

c) Natural Gas Procurement – Description

PG&E procured natural gas during the Quarter using various methods, including:

• Competitive Solicitations
• Transparent Exchanges
• Direct Bilateral Contracting for Short-Term Products
• Voice Brokering for the purchase and sale of natural gas futures or options
• Electronic Solicitations

d) Natural Gas Procurement – Justification

i. For competitive solicitations (RFOs), describe the process used to rank offers and select winning bid(s).
   • PG&E did not execute any contracts during this Quarter for approval through this QCR.

ii. For other transactional methods, provide the documentation supporting the selection of the chosen products.
   • Transparent Exchanges: Electronic trading exchanges for transparent prices:
     Commodity Purchases/Sales – PG&E bought and sold physical natural gas on the Intercontinental Exchange (ICE) and the ICE Natural Gas Exchange (ICE/NGX) physical clearing service. ICE is an electronic system that matches buyers and sellers of natural gas products. Once buyer and seller are matched, ICE trades become bilateral trades. ICE/NGX trades are cleared by NGX rather than bilaterally. Physical transactions in the Quarter include next day and same day transactions for delivery periods of one to five days. Relevant information is included in Confidential Attachment A.

     Gas Hedges (in Compliance With D.12-01-033) – During the Quarter, PG&E conducted hedging activities that were in compliance with its approved Hedging Plan. PG&E executed hedges (futures and options) directly on the ICE electronic trading platform. Hedge transactions were cleared through exchanges (ICE or the New York Mercantile Exchange [NYMEX]). ICE and NYMEX provide access to anonymous bids and offers establishing both a liquid and robust market for financial products, and a benchmark for bilateral products. These products include Henry Hub futures and options, and basis futures against the industry benchmark indices, including Canadian Gas Price Reporter (CGPR), Gas Daily, Natural Gas Intelligence (NGI) and Inside FERC (IFERC) Gas Market Report. Worksheets demonstrating PG&E’s compliance with D.12-01-033 are in Confidential Attachment L.

• Direct Bilateral Contracting for Short-Term Products:
     Commodity Purchases/Sales – PG&E bought and sold physical gas directly with counterparties in the bilateral market. Spot gas (deliveries less than one month) is traded at fixed prices and Gas Daily or CGPR index. Relevant information is included in Confidential Attachments A.
Gas Parking and Lending – PG&E purchased gas parking and/or lending services to balance its daily supplies with demand. The terms of the parking and lending transactions were less than one month.

- Voice Brokers – Gas Hedges – PG&E executed natural gas hedges (futures) through voice brokers that resulted in exchange-cleared trades. Brokers provide access to anonymous bids and offers from both bilateral parties and cleared counterparties. After a broker matches a buyer and a seller in a trade, the parties will determine whether the trade will be settled over-the-counter or cleared through NYMEX or ICE. The broker market trades the same financial products as the exchanges. Relevant information is included in Confidential Attachment A.

- Voice Brokers – Commodity Purchases/Sales – PG&E executed physical gas supply transactions through voice brokers that resulted in over-the-counter transactions. Brokers provide access to anonymous bids and offers from both over-the-counter and cleared counterparties. After a broker matches a buyer and a seller in a trade, the parties will determine whether the trade will be settled over-the-counter or cleared through NGX. The broker market trades the same products as the bilateral market. Relevant information is included in Confidential Attachment A.

- Electronic Solicitations:
  Conducted via Instant Messaging and Telephone – PG&E conducted auctions for the purchase of natural gas futures and options using instant messaging and telephone with financial counterparties. In this way, PG&E is able to obtain robust price quotes from the marketplace, in real time, and may then execute with the counterparty with the best offer(s). These transactions were then cleared on an exchange, such as NYMEX or ICE.

  PG&E conducted auctions for the purchase of prompt-month physical gas supply using instant messaging and telephone. In this way, PG&E is able to obtain robust price quotes from the marketplace, in real time, and may then execute with the counterparty with the best offer(s).

e) Other Commodities
   i. For competitive solicitations, describe the process used to rank offers and select winning bid(s).

   - None for the Quarter.

   ii. For other transactional methods, provide the documentation supporting the selection of the chosen products.

   - CARB Allowance Allocation and Auction Processes – PG&E received its annual allocation of Electric Distribution Utility (EDU) Current Vintage allowances from CARB in October 2014. All of the EDU allowances will
be consigned into the 2015 CARB Auctions as required by the regulations and consistent with PG&E’s BPP. CARB and Québec’s ministère du Développement durable, de l’Environnement et de la Lutte contre les changements climatiques (MDDELCC) held joint allowance auction #4 on August 18, 2015 for Current Vintage and 2018 Vintage allowances. PG&E is authorized to procure EDU GHG products through CARB Auctions, approved exchanges, and utilizing a competitive RFO process. PG&E provided information regarding its allowance procurement strategy to the PRG. Relevant information is included in Confidential Attachments E, F, K and L.

4. **Explanation/justification of the timing of the transactions.**

   a) **Electric Transactions**

      When selecting electric transactions, the best-priced bids/offers are selected first (merit-order selection) among those available for the required products at the time of the transaction, subject to credit and other limitations and operational constraints. Operational constraints include the local area reliability requirements of the CAISO, as set forth in D.04-07-028. Detailed explanation/justification for the timing of the transactions is included in Confidential Attachment J.

   b) **Natural Gas Transactions**

      For daily physical gas transactions, timing of execution is primarily driven by the requirement to match fuel usage by utility-owned and contracted electric generating units and supply delivered on a daily and monthly basis, and by the availability of information impacting expectations for daily dispatch of these units. For transactions one month or longer, PG&E typically fills its forecast short gas positions in month-ahead, seasonal, or annual blocks, depending on the liquidity and prices available in each of these markets. Execution of term transactions is based on the PG&E Electric Portfolio 2015-2016 (April 1, 2015 – March 31, 2016) Physical Gas Procurement Plan and documentation supporting the timing of transactions is included in Confidential Attachment J.
5. Discussion of the system load requirements/conditions underlying the need for the Quarter’s transactions.

a) PG&E Participation in the CAISO Markets

PG&E participates in the CAISO Day Ahead and Real-Time electricity markets. PG&E’s day-ahead planning and procurement incorporates weather-adjusted load forecasts, resource availability, price forecasts, dispatch costs and current bilateral electric market and forecasts of the CAISO’s day-ahead Integrated Forward Market (IFM) prices. The results of this process allow PG&E to determine the incremental costs of dispatchable resources that are bid into the IFM and the Real-Time Market (RTM). It also determines the price upon which PG&E is willing to pay the CAISO for meeting its hourly load in the IFM. The CAISO then assures least cost dispatch by considering all resources simultaneously with all transmission constraints.

In the RTM, similar to the day-ahead IFM, PG&E submits resource bids and schedules and those resources that clear the market will be obligated to operate in real time.

b) PG&E-Owned Generation Conditions During Third Quarter 2015

PG&E received 120 percent of normal rainfall during the Quarter. Although above normal, the normal level of precipitation in third Quarter is so low that this high percentage did not have a measureable impact on either generation or water storage levels.

Helms Pumped Storage Facility (Helms) was used throughout the Quarter as unit availability, system conditions, and economics allowed. On September 27, 2015 Helms Unit 1 began a planned outage to replace its generator rotor and is scheduled to return January 23, 2016. There were no forced outages greater than 24 hours during the Quarter at Helms.

Planned outages lasting longer than 72 hours on conventional hydro facilities greater than 30 MW during the Quarter included: Bucks Creek Units 1 & 2
(33 MW & 32 MW), Cresta U2 (35 MW), Drum 2 Unit 5 (49.5 MW), Rock Creek Unit 1 (63 MW) and Salt Springs Unit 1 (11 MW).

Forced outages lasting longer than 24 hours at conventional hydro facilities greater than 30 MW during the Quarter were incurred at: Balch 1 Unit 1 (34 MW), Balch 2 Units 2 & 3 (52.5 MW, each), Bucks Creek Units 1 & 2 (33 MW & 32 MW), Caribou 2 Unit 4 (60 MW), Cresta Unit 1 (35 MW), Electra Units 1, 2 & 3 (31 MW, 31 MW & 36 MW), Haas Units 1 & 2 (72 MW, each), Kings River (52 MW), Pit 1 Unit 2 (30.5 MW), Poe Unit 1 (60 MW), Salt Springs Units 1 & 2 (11 MW & 33 MW), and Tiger Creek Units 1 & 2 (29 MW, each).

There were no planned outages at the fossil combined cycle facilities, Gateway and Colusa Generating Stations, during the Quarter. There also were no forced outages greater than 24 hours during the Quarter at the fossil combined cycle facilities, Gateway and Colusa Generating Stations. There was one planned outage at Humboldt Bay Generating Station Unit 1 during the Quarter. This outage, a 24,000-hour engine overhaul, began on September 16, 2015 and lasted 20 days. There was one forced outage greater than 24 hours during the Quarter at Humboldt Bay Generating Station Unit 8 on July 31, 2015.

**Diablo Canyon Unit 1**

Unit 1 operated at a capacity factor of 101.2% during third Quarter 2015, experiencing one automatic curtailment to 98% power caused by the failure of a moisture separator reheater instrument (on the Secondary, non-nuclear, side of plant operation), operating below full power on the grid for 3.6 days. Otherwise, Unit 1 operated at full power on the grid the remainder of third Quarter.

**Diablo Canyon Unit 2**

Unit 2 operated at a capacity factor of 96.2% during third Quarter 2015, performing two manual maintenance curtailments to 50% power for planned cleaning of marine growth from the main condenser waterboxes and ocean cooling
water tunnels, operating a total of 6.2 days below full power on the grid. Unit 2 also performed a 3-hour planned manual turbine/generator maintenance outage for spray-wash cleaning of electrical insulators as a precautionary measure to help prevent potential electrical flashover events during periods of heavy moisture. Otherwise, Unit 2 operated at full power on the grid the remainder of third Quarter.

6. **Discussion of how the Quarter’s transactions meet the goals of the risk management strategy reflected in the Plan.**

   As described in Section 3.d. above, during the Quarter, PG&E executed transactions in accordance with its Hedging Plan. A list of relevant information regarding Consumer Risk Tolerance notifications and management disclosures is included in Confidential Attachments F and K.

7. **Copy of each contract.**

   A list of transactional contracts executed and/or modified by PG&E during the Quarter is included in Confidential Attachment H. Copies of the contracts that PG&E is seeking approval of through this QCR are also included in this attachment.

8. **The valuation results for the contract(s) (for contracts of three months or greater duration).**

   PG&E provides the valuation method and results for the contracts filed via this QCR in Confidential Attachment H.

9. **An electronic copy of any data or forecasts used to analyze the transactions.**

   Because transaction personnel are continuously monitoring a wide range of market information on a 24-hour-per-day, 7-day-per-week basis, it is not feasible to provide all the data and forecasts used to analyze all potential and executed transactions. However, key analysis data utilized during the Quarter is included in Confidential Attachment J.
10. **Provide a reasonable number of analyses requested by the Commission or the PRG and provide the resulting outputs.**

   To the extent any analyses requested by the Commission or PRG during the Quarter were not already included as a part of PG&E’s response to Items 1 through 9 above, such additional analyses would be contained in Confidential Attachment F.

11. **Any other information sought by the Commission under the Public Utilities Code.**

   To the extent that the Office of Ratepayer Advocates (ORA) has requested information for the Quarter as identified in its Master Data Request, this information will be included in PG&E’s Master Data Request response, and submitted to the ORA 14 days after the filing of the QCR. In addition, the Commission’s Energy Division has requested that PG&E provide transparent exchange traded prices. PG&E has included this information in Confidential Attachments A and E.

D. **Additional Reporting Requirement Pursuant to Decision 07-01-039**

   As required by OP 12 of D.07-01-039, PG&E has included in Confidential Attachment I, investments in retained generation that were completed during the Quarter, as well as any multiple contracts of less than five years with the “same supplier, resource or facility” as required in D.07-01-039 on page 154. There were no transactions or investments to report during the Quarter.

E. **Cost Allocation Mechanism (CAM)**

   PG&E executed one PURPA PPA and one associated Amendment under the QF/CHP Settlement that qualify for CAM-like treatment in the New System Generation Balancing Account (NSGBA).

New Contracts Executed and Amended During the Quarter

The table below provides a summary of Request for Offer (“RFO”) and Solicitation contracts executed during this Quarter and filed for CPUC approval via this Procurement Transaction Quarterly Compliance Report (QCR) advice letter. A copy of the contract(s) is included. Workpapers providing the method for valuation results calculations are included in Confidential Attachment L - Reasonable Number of Analyses Models, Description of Models, and How Models Operate.

* A terminated contract is ended before its original expiration date. An expiration date is the natural end of the contract.
Attachment 4
Confidentiality Declarations and Matrix
I, Marianne Aikawa, declare:

1. I am presently employed by Pacific Gas and Electric Company ("PG&E"), and have been an employee at PG&E since 1989. My current title is Senior Manager within PG&E’s Energy Procurement organization. In this position my responsibilities include reviewing regulatory reports. In carrying out these responsibilities, I have acquired knowledge of PG&E’s regulatory reporting and have also gained knowledge of electric energy procurement data, processes, and practices. This declaration is based on my personal knowledge of PG&E’s practices and my understanding of the Commission’s decisions protecting the confidentiality of market-sensitive information.

2. Based on my knowledge and experience, and in accordance with Decisions ("D.") 06-06-066, 08-04-023, 14-10-033 and relevant Commission rules, I make this declaration seeking confidential treatment of PG&E’s October 30, 2015 Advice Letter 4731-E, Confidential Attachments A, B, C, E, H, J and L.

3. Attached to this declaration is a matrix identifying the data and information for which PG&E is seeking confidential treatment. The matrix specifies that the material PG&E is seeking to protect constitutes confidential market sensitive data and information covered by D.06-06-066, 14-10-033 and/or General Order 66-C. The matrix also specifies why confidential
protection is justified. Further, the data and information: (1) is not already public; and (2) cannot be aggregated, redacted, summarized or otherwise protected in a way that allows partial disclosure. By this reference, I am incorporating into this declaration all of the explanatory text in the attached matrix that is pertinent to this submittal.

I declare under penalty of perjury, under the laws of the State of California, that the foregoing is true and correct.

Executed on October 30, 2015, at San Francisco, California.

/s/
Marianne Aikawa
I, Peter E. Koszalka, declare:

1. I am presently employed by Pacific Gas and Electric Company (“PG&E”) and have been an employee since 2003. My current title is Director, Electric Gas Supply in the Energy Supply Management Department, which is part of the Energy Procurement Department. I am responsible for physical and financial trading of gas in support of PG&E’s utility-owned generation plants and PG&E’s tolling agreements. In carrying out these responsibilities, I have acquired knowledge of gas supply and gas hedging for electric generation, the markets for physical and financial products for gas supply and hedging, and the various types of transactions involved. This declaration is based on my personal knowledge of PG&E’s practices and my understanding of the Commission’s decisions protecting the confidentiality of market-sensitive information.

2. Based on my knowledge and experience, and in accordance with Decisions (“D.”) 06-06-066, 08-04-023, 14-10-033 and relevant Commission rules, I make this declaration seeking confidential treatment of PG&E’s October 30, 2015 Advice Letter 4731-E, Confidential Attachments A, B, D, J and L.

3. Attached to this declaration is a matrix identifying the data and information for which PG&E is seeking confidential treatment. The matrix specifies that the material PG&E is seeking
to protect constitutes confidential market sensitive data and information covered by D.06-06-066, 14-10-033 and/or General Order 66-C. The matrix also specifies why confidential protection is justified. Further, the data and information: (1) is not already public; and (2) cannot be aggregated, redacted, summarized or otherwise protected in a way that allows partial disclosure. By this reference, I am incorporating into this declaration all of the explanatory text in the attached matrix that is pertinent to this submittal.

I declare under penalty of perjury, under the laws of the State of California, that the foregoing is true and correct.

Executed on October 30, 2015, at San Francisco, California.

Peter E. Koszalka
I, Jay Bukowski, declare:

1. I am presently employed by Pacific Gas and Electric Company (“PG&E”), and have been an employee at PG&E since October 1998. My current title is Principal within PG&E’s Energy Procurement organization. In this position, my responsibilities include review of regulatory reports and managing PG&E’s Procurement Review Group and Independent Evaluator program. In carrying out these responsibilities, I have acquired knowledge of PG&E’s regulatory reporting and have also gained knowledge of electric energy procurement data, processes, and practices. This declaration is based on my personal knowledge of PG&E’s practices and my understanding of the Commission’s decisions protecting the confidentiality of market-sensitive information.

2. Based on my knowledge and experience, and in accordance with Decisions (“D.”) 06-06-066, 08-04-023, 14-10-033 and relevant Commission rules, I make this declaration seeking confidential treatment of PG&E’s October 30, 2015 Advice Letter 4731-E, Confidential Attachments F and K.

3. Attached to this declaration is a matrix identifying the data and information for which PG&E is seeking confidential treatment. The matrix specifies that the material PG&E is seeking to protect constitutes confidential market sensitive data and information covered by D.06-06-066, 14-10-033, and/or General Order 66-C. The matrix also specifies why confidential
protection is justified. Further, the data and information: (1) is not already public; and (2)
cannot be aggregated, redacted, summarized or otherwise protected in a way that allows partial
disclosure. By this reference, I am incorporating into this declaration all of the explanatory text
in the attached matrix that is pertinent to this submittal.

I declare under penalty of perjury, under the laws of the State of California, that the
foregoing is true and correct.

Executed on October 30, 2015, at San Francisco, California.
